Chapter 1

Petasan

1.1 MBlank 1.22 - Modules/Petasan

Petasan.

Settings...

Bugs...

1.2 MBlank 1.22 - Modules/Petasan/Settings

All settings can be set via a settings window or via tooltypes, but since the tooltype names do not correspond with their function, I advice you to use the settings window, which is much more convenient anyway.

1.3 MBlank 1.22 - Modules/Petasan/Bugs

Petasan has been tested with Enforcer, MungWall and MemWatcher and has not generated any hits or memory-loss.

The glitter effect only glitters on laced screens.
