MNTICONS1

1.1 Yes!Cool!

```
                MNT ICONS 1
A -MUST HAVE- for every serious MagicWB-User! Package Includes:

-many new Icons for you Workbench
-new artwork for IR-Master Remotecontrols
-API Dockbar+prefs for Golded
-Dock+Drop-Icons for Toolmanager

and ALL THAT in MagicWB-style!

Some are redrawn from MagicWB1.3,others are Cut'n'paste from other
packages and some are completely new drawn by me.

```

1.3   Install GoldEd APIs

```
-Copy whole drawer IconsMF to Golded:API/DOCK/
-Copy DockMF.prefs DockMF.api to Golded:API/Dock/
-Select "Config/API" from Menu
-Click on Load and select file "DockMF.api" (see above)
-Finished!
```

1.4   Forgive me!

```
These little Icons are for IR-Master Remote-Controls.
Because i dont know which icons originated from me
and which were in the original release,there may
be some icons,that have not been drawn by me...
```

1.5   PT-Prefs

```
PT-Prefs lets you change the lookout of your Pro/Star/Noise/Soundtracker.
Its converts Main Screen,Font and the Pointer to standart IFF-ILBM Pictures,
which can be edited by you with your favourite paint-program and patches
them back into the tracker binary.
```

1.6   MagicParNET

```
Original dokumentation from MPN:

MagicParNET ist ein Ersatz für ParBench von Vernon Graner.
Verbesserungen:

> Alles in Deutscher Sprache
> Gigantisch vereinfachte Installation
> MagicWB-Icons
> Gepatchtes PNetKeys,um mit einem 11er Font auszukommen
> Client/Server Selektion nur durch Mausklick
> Neustes Parnet.device (2.1)
> Inclusive aller Netutils,die nicht c: verstopfen
> Installation in Deutsch,mit kompletter Erklärung.
  Deshalb starten,ohne Anleitungen zu wälzen!
> Nutzt den Installer
> Ausser den Handlern bleibt alles in einer Schublade
```

1.7   com

Bill Gates:  Multimilliadär,aber größenwahnsinnig.
             Will anscheinend die Welt beherschen,
             steht auf 'Big Brother'-Zukunft.
             (George Orwell lässt grüssen!)
