

TAZ - A Windows game in which there are falling triangles that one tries to fit together to form shapes of the same color. There is a different shape for each of 14 difficulty levels and one has to deal with new combinations of colored triangles at each new level. This is a demo version in that it is limited to the first 3 levels. By switching off the shapes *TAZ* becomes a different game where the player tries to place triangles of the same color next to one another.
