

MediaMagic Help Contents

Welcome to Space History, the first title in Andromeda Interactive's MediaMagic Series. If you have any queries that are not dealt with by this Help file, then please contact our Technical Support department on

tel: 01235 529595 (UK)

fax: 01235 559122 (UK)

email: andromeda@cix.compuserve.co.uk

MediaMagic - Space History consists of two sections. The first is an Encyclopedia where you can view over 1000 space pictures, 50 video clips, and 50 sound effects. The second is a MediaMaker section where you can put together multimedia presentations using the information contained on the disc.

As the disc loads, you will watch a MediaMagic animation. Click Escape to cut through the animation. You will then see a Space History title screen. Click the mouse to cut through to the Main Menu of the Encyclopedia.

[Encyclopedia Main Menu](#)

[MediaMaker](#)

Menu

Click on Menu to return to the Encyclopedia Main Menu. If you have a sequence in the filmstrip, a dialog box will appear asking you if you want to save the sequence. Click **Yes** if you want to save the sequence, or **No** if you do not.

If you click **Yes**, the Save dialog box will appear.

1. From the Save dialog box, select the directory you wish to save the sequence to.
2. Name the sequence.
3. Click on **OK**. The sequence will be saved as a **.seq** file in your directory.

Chapter Screens

Each of the twelve Chapters has a Chapter screen. To scroll through all the images in a Chapter, picture by picture, click on the green forwards arrow on the Control Panel. You will go from the Chapter Screen to the first image in the Chapter.

Most of the Chapter Screens also have subsections. Click on a subsection to access a particular section of the chapter. For example, click on the Apollo 11 subsection band to access the pictures about Apollo 11. The numbers to the right of the subsection bands are the picture numbers in the chapter; for example the Apollo 11 subsection covers pictures 58 to 74 in the Apollo Project Chapter.

The Control Panel will appear to the right of each Chapter Screen.

[Control Panel \(Encyclopedia\)](#)

Control Panel (Encyclopedia)

The Control Panel contains most of the functions of Space History, both in the Encyclopedia and in MediaMaker. It is present on all screens in the Encyclopedia except the Browsers.

The position of the Control Panel can be moved in order to view a picture more clearly. Click anywhere other than on a button and drag the Control Panel across the screen. Release the mouse when the Control Panel is in the position you want.

Click on MediaMaker to access the MediaMaker section.

Click on Menu to return to the Main Menu.

Click on Exit to exit Space History.
