

Paper plane [A4 size 4 pages]

A wide range of different origami has been enjoyed in Japan since ancient times.

Take your "Paper plane" out to an open space to fly it.

The letters in blue circles indicate the fold lines. They are also shown on the practice sheet.

Start

Fold in half along line **A**.

Unfold the paper and flatten.

Turn the paper around.

Fold line **B** so that it matches up along the centre line.

Fold the opposite side in the same way along line **C**.

Flatten out the folds.

Fold along line **D** to align the outer edge of the paper onto the center line.

Flatten out the folds.

Fold along line **E** to align the outer edge of the paper onto the center line.

Fold the opposite side in the same way along line **F**.

Flatten out the folds.

Continue on to page 2.

Continued
from
page 1.

Turn over.

Flatten out the folds.

Fold the upper triangle
down along line **G**.

Fold in half along line **H**.

Flatten out the folds.

Turn the paper around.

Fold the opposite side
in the same way along line **I**,
then flatten out the edges.

Turn over.

Fold the opposite side
in the same way along line **J**,
then flatten out the edges
and open out the wings.
