## 4. To Do Tutorial

# Setting up the To Do Project

Create the To Do project almost in the same way you created the Travel Advisor application. There are a few differences; each, of course, has a different name and icon. But the most important difference is that To Do has its own document type

### 1 Create the application project.

Start Project Builder.

Choose New from the Project menu.

Name the application `ToDo`.

### 2 Add the application icon.

The `ToDo` icon (`ToDo.tiff`) is located in the `ToDo` project in the `AppKit` subdirectory of `/NextDeveloper/Examples`.

[272594\\_TD\\_SettingUp1.eps](#) ↗

### 3 Specify the To Do document type.

Click Add.

Double-click the new cell under the Extension column.

Type the extension of To Do documents: `td`.

Drag into the image well the file `calendar.tiff` from the `ToDo` project in `/NextDeveloper/Examples/AppKit`.
