

Checksum Package

Contents:

Checksum_2.0.pkg - the CheckSum application. Install this in /LocalApps. If you are upgrading from a previous 1.x version of CheckSum, follow these instructions:

1. Back up your data files created by CheckSum. By default you should find them in your **~/Library/ChecksumData/** Directory (*If you can't find your data files launch the old CheckSum and look in "Info->Preference" Menu for the location of the Data*).
2. Use the file Browser to launch the CheckSum package in: **NextLibrary/Receipts/Checksum.pkg**
3. Delete the OLD version of CheckSum by selecting "Delete" in

the Installer application (The Installer should have lunched after double clicking on CheckSum.pkg) .
