1.1 The New Dopus.CFG

```
        The New Dopus.CFG , The Best Around For Youre BBS

                      Version 1.0

                    Made By STaRFiX

                 From The Airheads BBS

                  Call. 080-451048

                !! Introduction !!
                !! Installation !!
                !!  What to do  !!
                !!  Additional  !!
                !!   Card Ware  !!
                !!    Problems  !!
```

1.2 Introduction

```
Well hello Dude !!

So You're running a BBS ??

And you wanna know if there is a easy way
to check youre icoming files ??

Well here is youre solution to all the problems
they'll all be off the past!!
Iff you follow these docs carefully then you'll
have no problems , but read them carefully !!

And you'll see when you're finished the BBS will
run as smooth as a pussy is slippery :)
```

1.3   Installation

```
There is a Install programm on the disk !!
Iff you use it , then there will be no worry's
because the things that you have, will be renamed
in *.OLD , so nothing will be lost !!

Ofcourse there will be a part that have to be done
manualy, this in sight of the versions you use !!
Any programm in the New_Dopus.CFG:C/ directory  will
       have a version number as comment on the file,
check that out and decide then wich of those you
wanna replace !!
```

1.4   What to do

```
Now there's a bit you have to do manualy, the stuff thats in the
Dopus dir must be copy'd in the Dopus: on youre HardDisk !!
In the Dopus dir in the disk is a dir called Checker , you MUST
assign Checker: to that directory !!
So This is what have to be in youre user-startup :

          Assign Checker: Dopus:Checker/

Also there are 2 directory's made in youre S: directory,
One is called "AutoAdd" in there you must put a Ascii Add of
youre own !!
The second dir is called Checkers.DMS.LHA , there are several
scripts that you have to adapt to youre own needs, specially
the paths are wrong so configure those to youre own idea !!
```

1.5   Additional

```
Copy the files in New_Dopus.CFG:C/ in youre own C:directory.
Copy the Dirs New_Dopus.CFG:Dopus/Arexx &
New_Dopus.CFG:Dopus/Checker in youre Dopus: directory.
Check to see if the fonts on the disk are already in
youre Fonts: directory, if not then do also copy these
in the Fonts: directory.
```

1.6   Card Ware

```
This Production is CardWare !!

This means that if you're using this software,
then send me a Card with youre Name & Adress.
Please note on that card wich part you like
or dislike!! Either one !!
```

```
Send this Card to:

Frank Bastiaens
Tolhuis 75-51
6537 SK , Nijmegen
The Netherlands
Europe

You can also call my BBS:

The Airheads BBS 31-(0)80-451-048
```

1.7 Problems

```
I don't think you'll have any problems,
be sure to follow the instructions in the
doc on the letter !!

Have Fun Dude !!

Greetings Go To :

Lord Cannabis / Flipper / Scarab / XenoByte
MadMax & Last But Not Least The Boys Of ViRTiL !!
```
