

LOAD INTERRUPT SWITCH

The Corcomp Inc. LOAD INTERRUPT SWITCH is designed to enable you to use UTILITY PROGRAMS that require a hardware switch. A UTILITY PROGRAM, such as a "screen dump" utility, is first loaded into the computer memory, either through TI Extended Basic or the Editor/Assembler "load and run" option, as per the instructions supplied with the program. The UTILITY PROGRAM is then accessed when this switch is pressed.

The LOAD INTERRUPT SWITCH plugs into the I/O port on the side of the console between the console and any expansion device. The LOAD INTERRUPT SWITCH may remain installed without the UTILITY PROGRAM installed as long as the switch is not depressed.

In case of difficulty, please check all connections first. If problems still occur, please contact CorComp Customer Service at (714)630-2903 so that they may be quickly resolved.

CORCOMP INCORPORATED

LIMITED WARRANTY

CorComp warrants the LOAD INTERRUPT SWITCH which it manufactures to be free from defects in materials and workmanship for a period of 120 days from the date of purchase.

During the 120 days warranty period CorComp will repair or replace, at its option any defective products or parts at no additional charge, provided the product is returned, shipping pre-paid to CorComp. The Purchaser is responsible for insuring any product so returned and assumes the risk of loss during shipping, all replaced parts and products become the property of CorComp.

RETURN MATERIAL AUTHORIZATION (RMA) NUMBER

Any CorComp product which is returned to CorComp for any reason must reference a RMA number. A RMA number will be issued to a customer after the following information has been given to the Customer Service Department:

1. CorComp product model number.
2. Product serial number or date code.
3. Description of system configuration.
4. Name and telephone number of technical contact in case additional information is required.

All products shall be returned to CorComp freight prepaid. Note: If the customer does not contact the Customer Service Department for a RMA number, and the package arrives at CorComp, the package will be returned to the sender, freight collect and the product not repaired.
