

Texas Instruments Home Computer Accessory

Audio Adapter

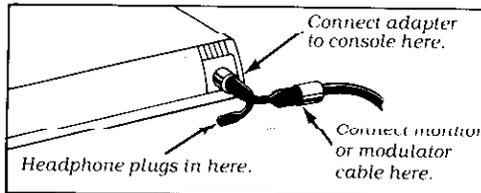

Model PHA2020
FOR USE WITH 1/4" PLUG HEADPHONES

To connect the Audio Adapter to your TI Home Computer, follow these steps:

1. Disconnect the monitor or Video Modulator cable from the back of the Main Console.

2. Plug the male end of the Audio Adapter into the 5-pin socket on the back of the console. Then plug the monitor or Video Modulator cable into the 5-pin female end of the adapter.
