

## MEMORY CONFIGURATOR - MAXIMIZE YOUR PRODUCTIVITY AND EFFICIENCY!

Windows® & Windows For Workgroups		Recommended Memory
Administrative	Easy – Word processing, e-mail, data-entry	8 - 12MB
	Moderate – Fax/communications, database administration, spreadsheets; >2 applications open at a time	12 - 16MB
	Intense – Complex documents, accounting, business graphics, presentation software, network connectivity	16 - 32MB
Executive	Easy – Proposals, reports, spreadsheets, business graphics, databases, scheduling, presentations	16 - 24MB
	Moderate – Complex presentations, sales/market analysis, project management, Internet access	24 - 32MB
	Intense – Statistical applications, large databases, research/technical analysis, complex presentations, video conferencing	32 - 64MB
Engineer/Designers	Easy – Page layout, 2-4 color line drawings, simple image manipulation, simple graphics	32 - 48MB
	Moderate – 2D CAD, rendering, multimedia presentations, simple photo-editing, web development	48 - 64MB
	Intense – Animation, complex photo-editing, real-time video, 3D CAD, solid modeling, finite element analysis	64 - 256MB
<b>Windows® 95</b>		
Administrative	Easy – Word processing, e-mail, data-entry	12 - 16MB
	Moderate – Fax/communications, database administration, spreadsheets; >2 applications open at a time	16 - 20MB
	Intense – Complex documents, accounting, business graphics, presentation software, network connectivity	20 - 32MB
Executive	Easy – Proposals, reports, spreadsheets, business graphics, databases, scheduling, presentations	24 - 32MB
	Moderate – Complex presentations, sales/market analysis, project management, Internet access	32 - 48MB
	Intense – Statistical applications, large databases, research/technical analysis, complex presentations, video conferencing	48 - 64MB
Engineer/Designers	Easy – Page layout, 2-4 color line drawings, simple image manipulation, simple graphics	32 - 48MB
	Moderate – 2D CAD, rendering, multimedia presentations, simple photo-editing, web development	48 - 64MB
	Intense – Animation, complex photo-editing, real-time video, 3D CAD, solid modeling, finite element analysis	64 - 256MB
<b>Windows® NT</b>		
Administrative	Easy – Word processing, e-mail, data-entry	16 - 24MB
	Moderate – Fax/communications, database administration, spreadsheets; >2 applications open at a time	24 - 32MB
	Intense – Complex documents, accounting, business graphics, presentation software, network connectivity	32 - 48MB
Executive	Easy – Proposals, reports, spreadsheets, business graphics, databases, scheduling, presentations	24 - 32MB
	Moderate – Complex presentations, sales/market analysis, project management, Internet access	32 - 48MB
	Intense – Statistical applications, large databases, research/technical analysis, complex presentations, video conferencing	48 - 64MB
Engineer/Designers	Easy – Page layout, 2-4 color line drawings, simple image manipulation, simple graphics	32 - 48MB
	Moderate – 2D CAD, rendering, multimedia presentations, simple photo-editing, web development	48 - 64MB
	Intense – Animation, complex photo-editing, real-time video, 3D CAD, solid modeling, finite element analysis	64 - 256MB
<b>Macintosh® OS</b>		
Administrative	Easy – Word processing, e-mail, data-entry	8 - 12MB
	Moderate – Fax/communications, database administration, spreadsheets; >2 applications open at a time	12 - 16MB
	Intense – Complex documents, accounting, business graphics, presentation software, network connectivity	16 - 32MB
Executive	Easy – Proposals, reports, spreadsheets, business graphics, databases, scheduling, presentations	16 - 24MB
	Moderate – Complex presentations, sales/market analysis, project management, Internet access	24 - 32MB
	Intense – Statistical applications, large databases, research/technical analysis, complex presentations, video conferencing	32 - 64MB
Engineer/Designers	Easy – Page layout, 2-4 color line drawings, simple image manipulation, simple graphics	32 - 48MB
	Moderate – 2D CAD, rendering, multimedia presentations, simple photo-editing, web development	48 - 64MB
	Intense – Animation, complex photo-editing, real-time video, 3D CAD, solid modeling, finite element analysis	64 - 256MB
<b>OS/2®</b>		
Administrative	Easy – Word processing, e-mail, data-entry	12 - 16MB
	Moderate – Fax/communications, database administration, spreadsheets; >2 applications open at a time	16 - 20MB
	Intense – Complex documents, accounting, business graphics, presentation software, network connectivity	20 - 32MB
Executive	Easy – Proposals, reports, spreadsheets, business graphics, databases, scheduling, presentations	24 - 32MB
	Moderate – Complex presentations, sales/market analysis, project management, Internet access	32 - 48MB
	Intense – Statistical applications, large databases, research/technical analysis, complex presentations, video conferencing	48 - 64MB
Engineer/Designers	Easy – Page layout, 2-4 color line drawings, simple image manipulation, simple graphics	32 - 48MB
	Moderate – 2D CAD, rendering, multimedia presentations, simple photo-editing, web development	48 - 64MB
	Intense – Animation, complex photo-editing, real-time video, 3D CAD, solid modeling, finite element analysis	64 - 256MB
