Disclaimer

PLEASE READ CAREFULLY BEFORE USING THE COREL CORP. DEVELOPER'S TOOLKIT

Corel Corporation Limited ("Corel") is pleased to provide you with this Software Developer's Toolkit ("Toolkit"). It is Corel's intention in designing the Toolkit to make it compatible with previous versions of the Toolkit. However, since it is constantly being modified and reorganized, with certain capabilities added to, or eliminated from, any particular version or product, Corel makes no representations or warranties concerning compatibility with other versions or products.

You are solely responsible for determining the usefulness of the Toolkit for your particular purpose. The Toolkit is provided to software developers with the expectation that the developers are capable of writing and debugging their own programs; Corel does not assume any support obligations with respect to the Toolkit or the use thereof. Any research, development, or evaluation you perform is done entirely at your own risk.

Overview

This document contains information about the structure and format of WordPerfect. It includes information about file formats of Corel Corporation products, such as graphic device driver files and macro files. This information is intended to help developers, programmers, or users who need to know about the internal structure of these files. Information is also provided to help application programmers develop third-party programs that need to interface with Corel Corporation products. This document is subject to change without notice.

Intended Audience

The information in this document is intended for anyone who needs to develop programs or create files that share information with Corel Corporation products. The information contained in this document is not confidential; however, **the Corel Corporation programs themselves are copyrighted, so do not under any circumstances modify or tamper with these programs.**

This information will help you do the following:

► Convert files or data from some other source into WordPerfect 5.0/5.1 for DOS and WordPerfect 5.1/5.2 for Windows compatible documents.

► Develop add-on programs that work with WordPerfect.

► Write device drivers to allow WordPerfect to work with a particular hardware (such as a printer or screen display).

► Extract information from WordPerfect files to use with other programs.

Information, Customer Services and Support

Corel Solution Partners Information
For more information on Corel Solution Partners program, visit our web site at *www.corel.com* or call (801) 765-4150. To apply, the online application is located at our web site under the *Partners and Developers* section.
