
Installing Acrobat Reader Contained on the PhotoPlus 8.0 Program CD-ROM

The PhotoPlus 8.0 Program CD-ROM contains the PhotoPlus 8.0 Companion in PDF format. To view the companion you must first install the Acrobat Reader by running the Acrobat Reader Install, which is located in the AcroReader folder of the PhotoPlus 8.0 Program CD-ROM. To start the install simply run AcroSetup5.exe if your running a 9x OS or AcroSetup7.exe if your running a NT based OS from the AcroReader folder, or type Run... #: \AcroReader\AcroSetup5.exe if your running a 9x OS or #: \AcroReader \AcroSetup7.exe if your running a NT based OS from the Start menu (Where # is the letter of your CD drive containing the PhotoPlus 8.0 Program CD-ROM).

Once the Acrobat Reader has been installed you will be able to view the Companion by clicking on the icon for "PhotoPlus 8 Companion" in the Program Files\Serif Applications\ PhotoPlus 8.0 folder of your Start Menu.
