

he easy-to-use time tracking program for the Macintosh®.

TimeTracker™ is distributed as shareware. Commercial distribution is restricted, however, you may freely give an unregistered version to your friends or upload it to bulletin boards. The unregistered copy of TimeTracker will only record approximately 30 minutes of time.

Registered versions of TimeTracker

- can record an unlimited amount of time
- don't display a window asking you to register TimeTracker

Watch for TimeTracker for Microsoft Windows coming to a pc near you. Write (postal or email) for more information.

Watch for TimeTracker for other languages, such as German and French. Write (postal or email) for more information.

Please feel free to submit any comments, suggestions, and bug reports.
