You should carefully read the following terms and conditions before using this software. Your use of this software indicates your acceptance of this license agreement and warranty stipulation.

Registered Version

One registered copy of this software may either be used by a single person who uses the software personally on one or more computers, or installed on a single workstation used nonsimultaneously by multiple people, but not both.

You may access the registered version of this software through a network, provided that you have obtained individual licenses for the software covering all workstations that will access the software through the network. For instance, if 8 different workstations will access this software on the network, each workstation must have its own license, regardless of whether they use the software at different times or concurrently.

There are multi user licenses of the software available, which makes licenses much cheaper compared to individual licenses. A multi user license pack may be used for one location only, it may not be splitted between several locations or companies.

A site-license allows you to use this software on all PCs of one location (city) of a company. For instance, if your company has a branch in Los Angeles and bought a site license, this software may be installed on all PCs there. For the PCs in New York you need additional licenses.

Disclaimer of Warranty

THIS SOFTWARE AND THE ACCOMPANYING FILES ARE SOLD "AS IS" AND WITHOUT WARRANTIES AS TO PERFORMANCE OR MERCHANTABILITY OR ANY OTHER WARRANTIES WHETHER EXPRESSED OR IMPLIED. Because of the various hardware and software environments into which this software may be put, NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE IS OFFERED.

Good data processing procedure dictates that any program be thoroughly tested with non-critical data before relying on it. The user must assume the entire risk of using the program. ANY LIABILITY OF THE SELLER WILL BE LIMITED EXCLUSIVELY TO PRODUCT REPLACEMENT OR REFUND OF PURCHASE PRICE.
