

PocketLink v.2.0

MD Development Inc. 2002
Palm Software Division (PSD).

Application Descriptions

PocketLink (tm) is an online Web Browser Client for PalmOS platform devices. Its main function is to give PalmOS device users access to World Wide Web Contents.

Supported Platform

Palm OS Version 3.5 and above

Features include

-  Real Web browser (Without using content proxy server)
-  Support HTML Version 3.2 standards
-  Support iMode cHTML standards
-  Displaying GIF Images
-  Support for HTTP Proxy Server
-  HTTP Cookies
-  Offline viewing for browsed contents
-  URL Bookmarks
-  Palm binary file (*.prc, *.pdb) online installation
-  Save web pages for Electronic Book like features
-  Smooth scrolling via Stylus
-  Sony CLIE high resolution display support
-  Sony Jog Dial support
-  HandEra 330 QVGA display support
-  HandEra 330 Jog Wheel support
-  HandEra 330 collapsible Graffiti area support

Limitations

-  No Java, JavaScript, WmlScript, Flash and Rich Media types support
-  Limited HTML table support:
 -  maximum of 4 columns, if table has more than 4 columns it will wrap to next row
 -  alignment is not yet supported
 -  table within table will wrap to next row (may cause difficulty to distinguish what content belongs to which table)

Before Using PocketLink

This manual is for **PocketLink**. Please refer to the user manual of your Palm device for details on the connection of the Palm device to internet.

Installation Procedure

1. Launch the installation tool on your PC.
2. Click the ADD button, and select the PocketLink_20.prc file to install into your Palm device.
3. Click the Close button.
4. Perform HotSync to install PocketLink from your PC onto your Palm device.

Refer to the user manual of the Palm Desktop for detailed description on the usage of the installation tool.
