1. Introduction

myBDays is a calendar event and a reminder. You can setup important dates such as birthdays, anniversaries, special events, kid's sporting games and any event that you wish to remind you of.

myBDays is more than just a calendar. You can set background pictures for each month. Custom icons for important dates such as Christmas, Halloween, birthdays etc... When you are finished customizing myBDays calendar you can save the calendar as a jpg and can send it to your family or friends or print it.

You can set up reminder alarm for each event. Alarms can have a custom jpg picture and custom wave file or mp3/ogg (requires PocketTunes 2.1 and higher).

myBDays also includes the 12 animal signs.

2. System Requirement

- Palm® OS 5.0 and higher with Extended Sound Manager support.
- External card
- 280K of main memory for myBDays.
- Optional: Pocket Tunes™ 2.1 or higher to play mp3 and ogg files.

2.1 Compatibility

- Palm® Tungsten T/T2/T3/E/C, Palm® Zire 71
- Sony® Clie PalmOS 5.x. PalmOS® 5.2.1 is required for Sound
- Tapwave® Zodiac
- Garmin®
- Pocket Tunes® v2.1 and higher

3. Installation

3.1 Installing myBDays

To install myBDays double click on the file myBDays.prc and then press the HotSync® button on the cradle. The HotSync® manager will install the program on to your Palm.

4. Launching myBDays™

From your Launcher look for the icon **myBDays** and tap on it to launch it. If you cannot find the icon use the scroll bar and scroll down.

5. User Interface

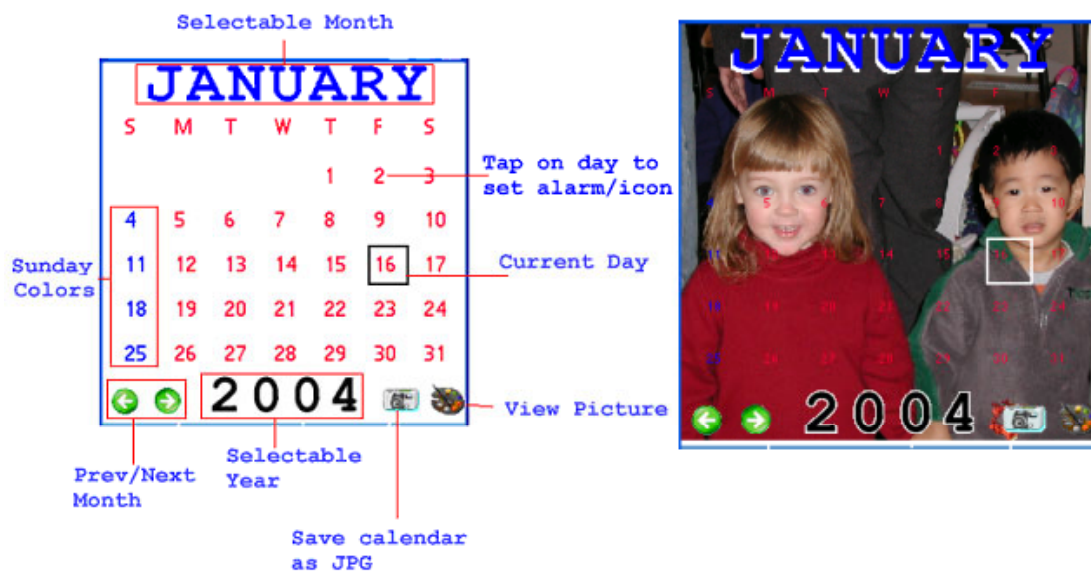

Diagram 1: Standard Calendar

5.1 Select Month

To view a different month tap on the Month name located on the top of the screen. A popup displaying all the months will be displayed. Select the month you wish to view.

5.2 Select Year

To view a different year tap on the Year name located on the top of the screen. A popup displaying the year will be displayed. Select the year you wish to view.

5.3 Previous and Next Month

To view the previous and next month, tap on the Left or Right arrow button. When the month is December a new year will be shown. If the month is January then previous year will be shown.

5.4 Saving the Calendar

If you have the quickSave application installed you can save the current calendar as a jpg file to the external card. When saving only the background and text are saved. The icons are not saved.

5.5 Viewing Picture

If you have a background picture selected you can view the picture.

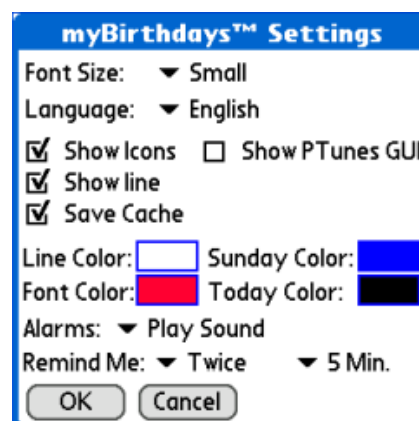

5.6 Set Alarm and Icon

To add an icon or set an alarm for date tap on the date you wish and a popup will be displayed.

5.7 Current Day

Current day is shown with a rectangle around it.

▼ 5 Min. Reminder alarm.

7. Chinese Zodiac

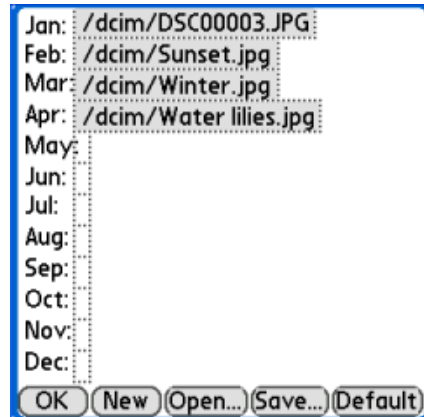

Chinese Zodiac displays the 12 animal signs.

8. myBDays™ Themes

Themes are background calendar pictures. You can create many themes that include different background pictures for different month.

8.1 Edit Theme

To edit and add a new theme, select Edit->Edit Theme from the program menu. The above screen will be opened.

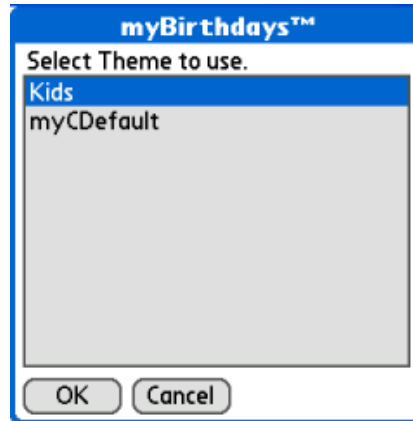

Tap on the month Toggle button to select the picture. Repeat this process for each month.

Default Theme

myBDBdays requires that you have default theme saved. If you don't have a default theme saved then no background pictures will be shown. After you have selected all your pictures tap on the Default button. This will save the current theme as default. Every time you start myBDBdays the default theme will be loaded.

You can always load a new theme and use or save a new theme as default.

8.2 Open Theme

To open a new theme go to the program menu and select Open Theme menu item. The selected them will be used but not as default.

9 Edit Months

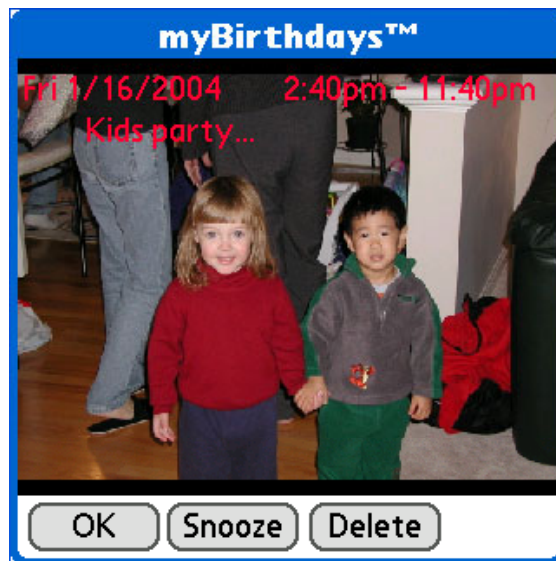

You can localize the months that is displayed in the calendar. To change the month text just edit the month and select OK.

10. Setting Alarm

To set an alarm, tap on the date in the calendar view. A popup will be displayed. Selected Set Alarm item and the above window will be display.

You must select the time and when the alarm will be triggered. You have the option of playing a wave or mp3 file (mp3/ogg required PocketTunes 2.1. and higher). You can also select a background picture to display for the alarm.

11. Saving Calendar

To save the current month as a jpg file you need to install the quickSave application. The file will be saved to the external card in /DCIM folder.

12. Viewing and Editing Picture

When you select a background picture myBDays will fit the picture to the screen size. You can resize the picture by tapping on the Paint icon.

When you are viewing the picture you can use the Stylus and drag the hidden portion into viewing. When you are satisfied with the picture, tap on the Home icon to return to myBDay. The new background will be used. You must check ☒ **Save Cache** in the Settings to save the cache image.
