# miroVIDEO STUDIO 400

miroVIDEO Studio 400 puts you in command of your own professional-style video editing studio... where creating polished, entertaining movies from your camcorder video footage is easy, creative, and fun.

THERE IS NO CARD TO INSTALL

## Package contents:

- miroVIDEO Studio digital video mixer with real-time effects technology and S-video and composite video in and outputs, connects to PC printer port (includes printer pass through)
- Pinnacle Systems' STUDIO video editing software for easy editing including TitleDeko™ and SmartCapture™
- SmartCable™ - controls your camcorder and VCR
- Bundled software: Microsoft® NetMeeting™ with Internet Explorer™ 4.0 and Sonic Desktop SmartSound™

## miroVIDEO STUDIO 400 MAKES IT EASY TO MAKE MOVIES FROM YOUR VIDEO FOOTAGE

miroVIDEO Studio 400 automatically finds and captures each scene on your camcorder tape and places them in the video album. Just click on any scene to watch it play back immediately in the play back window.

View your changes instantly in the play back window.

Choose the scenes you want from the video album and drag and drop them in any order onto the storyboard.

Switch to the timeline view for more accurate editing of audio and video effects.

Choose from more than 200 professional title looks and styles, including neons and metallics. Rotate, stretch and scroll titles easily.

## Simple to install

- Connects to your PC printer port (with pass through for printer) - no board to install
- Works with your camcorder and VCR to create a complete video editing studio
- Includes a multimedia tutorial to get you up and running fast

## Easy, Creative Video Editing

- Drag and drop storyboard editing - the easiest way to make finished movies from your camcorder video footage
- Real-time play back lets you view edits - including transitions, effects, titles and graphics - as you make them
- Timeline editing for more accurate editing of audio and video effects
- Blend and link scenes with professional style-transitions - wipes, fades and dissolves - from the miroVIDEO Studio 400 library
- Spice up your movies with graphics and titles with hundreds of professional looks and styles

## Create Exciting Soundtracks

- Add sound effects included and music from CDs
- Automatically generate a custom musical soundtrack of any length using built-in SmartSound technology
- Add voice-over narration synchronized to your movie

## No Storage Problems

- Create full resolution video tapes without crowding your hard disk (one hour tape takes less than 150MB of disk space for editing)

## Internet Ready

- Create digital movies to send via email or publish on you home page

## Take Video Snapshots

- Capture still images (up to 1500x1125) from any video source - for use in your miroVIDEO Studio 400 productions or in other applications

Control your camcorder and VCR with familiar on-screen controls
