

Hebrew Language Kit

Features

Versatile multilingual capabilities

- Switch between languages easily
- Combine different languages in the same document
- Install as many language kits as needed on a single Macintosh system

High-quality fonts

- Six Hebrew fonts, including Yiddish characters
- Apple TrueType format for high-quality on-screen and printed characters
- QuickDraw GX features for state-of-the-art typography*

Ease of use

- Simple, flexible installation process
- Informative installation and user's guide (in English and French)
- Transparent labels for different keyboard layouts
- Keyboard quick-reference card

Compatibility

- Works with System 7.1 and all subsequent versions of the Mac OS
- Compatible with any localized version of the Mac OS and with other Apple Language Kits
- Supports QuickDraw GX in System 7.5
- Runs in native mode on Power Macintosh computers

**QuickDraw GX font features require System 7.5 or later, QuickDraw GX software, and a QuickDraw GX-compatible application.*

With Apple's Hebrew Language Kit, adding Hebrew and Yiddish text to your documents is both easy and affordable.

This easy-to-install, easy-to-use kit lets you enter, edit, and print Hebrew and Yiddish text. You can switch effortlessly between these languages and the computer's main language. Hebrew and Yiddish can be mixed with left-to-right languages in the same document—even in the same sentence. The kit features a selection of keyboard layouts optimized for both native speakers and students, along with transparent labels for customizing your keyboard.

The Hebrew Language Kit works with most Mac OS-compatible applications that support right-to-left text entry, including multilingual and Hebrew-localized applications. Because the kit builds on the inherent multilingual capabilities of the Mac OS, text created in one application is

transportable to another. You can copy and paste or drag and drop between applications, and work with documents created by colleagues in Israel who use the Hebrew version of the Mac OS.

The Hebrew Language Kit includes a selection of Apple TrueType fonts enhanced with exciting new QuickDraw GX typographic features. TrueType font technology ensures high-quality on-screen and printed characters at any size.

This product is part of a family of Apple language solutions, which offer an affordable way to internationalize your Macintosh system. You can install as many different Apple Language Kits as you need on a single computer. Apple's multilingual product offerings include the Arabic Language Kit, the Chinese Language Kit, the Chinese Dictation Kit, the Cyrillic Language Kit, the Japanese Language Kit, and others.

Hebrew Language Kit

Ordering Information

Hebrew Language Kit

Order No. M4453Z/A
