It's this easy to set up.

iMac comes out of the box ready to go. Just connect the keyboard and mouse. Connect the power cord to a power point and the modem cord to a phone socket. Switch it on. And begin.

The software you want most is included.

iMac comes with everything you need to explore the Internet, enhance your productivity, and have fun, too. You'll get Microsoft Internet Explorer, AppleWorks, the hot game Nanosaur, and much more. Thousands of other Macintosh applications are available.

Introducing the tastiest iMac yet.
One groundbreaking computer in
five dazzling colours.

Beneath its jaw-dropping
appearance, iMac is a rocket of a
computer. With its PowerPC G3
processor, iMac can run even
faster than much more expensive
Pentium II computers. iMac is also
Internet ready, right out of the box.
Setup is fast and easy.

With speed, style, and simplicity,
iMac gives you everything you
need in a personal computer.
Including personality.
