

To run the redistributable version of DAO setup that is in the `redist\DAO` directory run the following command:

```
setup NOSDK
```

Run `setup.bat` from `redist\DAO` to invoke the above command.

To run the complete version of the DAO SDK, run `setup` from the DAO SDK directory at the root of the Visual C++ CD.

For the most up-to-date information about distributing DAO with your application, see article Q143292, "Information on Redistributing DAO Components with DAO Apps", in the Microsoft Developer Knowledgebase. You can get to the Knowledgebase by going to <http://www.microsoft.com/kb>. Type "Q143292" in the search string.
