

CyclonistTM NT

Organic Particle Effects
for After EffectsTM 3.0

PRELIMINARY
EXPECTED SHIPPING Q1 1998
Create Incredibly Realistic Particle Effects

Over 100 Presets

Start with a preset like Fire, Painterly, Rain or Molecular. Import your own images and movies then modify any & all parameters!

Over 160 Strokes

A stroke defines the overall look of the effect. Cyclonist ships with a bunch and you can visually choose them using a dialog. You can even make your own, they can be in color, and they can be animated!

Full Color Quick Ref

Comes with a convenient quick reference card for all params. and strokes.

Multimedia Docs

All aspects of the plug-in are fully explained with 80+ screens with graphics and over 100 movies.

63 Parameters

You have full control over the look of the effect. Start with a preset and modify as much as you like. Save it and give it to others!

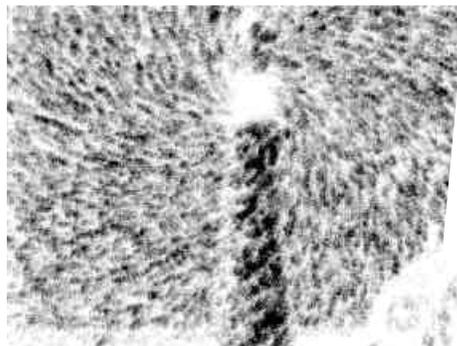

Fire Preset

Amazingly realistic simulation of a burning oil fire. By controlling the speed, size and the color, you get very close to the real thing – without the mess of lighter fluid!

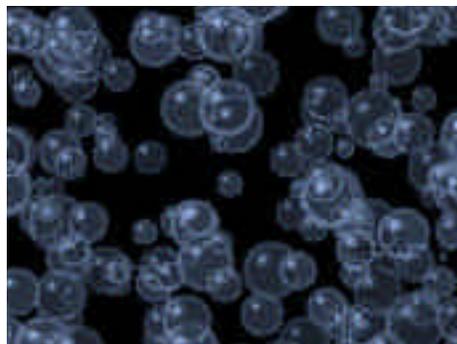

Charcoal Sketch Preset

Nice artistic rendering style of a black charcoal pencil. The angle of the strokes can be animated, which gives a comfortable human quality.

Bubbles Preset

Lovely little happy bubbles, floating and swaying! Since each particle it's own behavior, the look is highly organic.

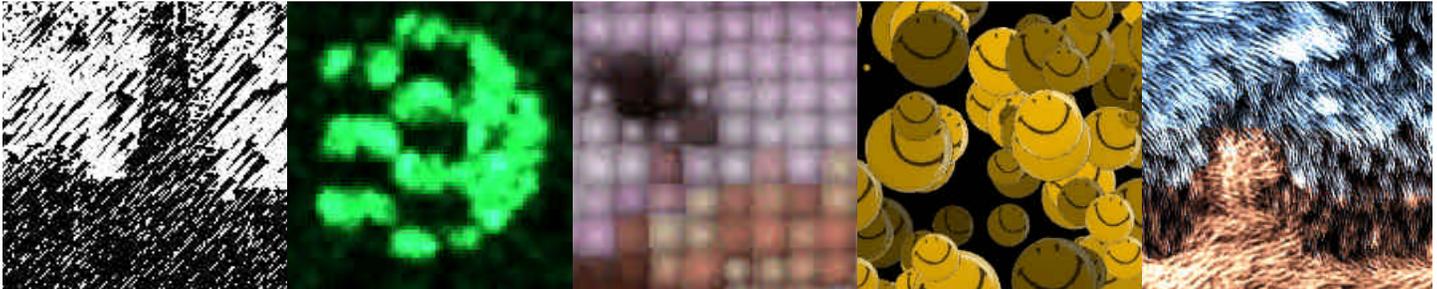

Snow

Fire

Rain

Galaxy Swirl

Water on Glass

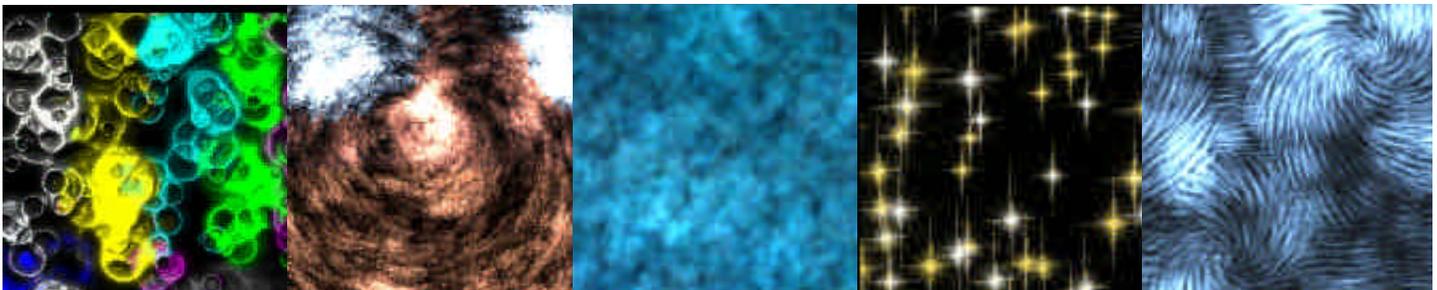

Graphic Pen

Green Glow

Molecular

Animated Strokes

Painterly Imagery

Circular

Luminous Textures

Nice Backgrounds

Falling Stars

Open Swirls

Product Description

Cyclonist NT (pronounced "sigh-clone-ist") is a new organic particle effects generator in the form of a plug-in filter for After Effects. It allows you to create a broad range of organic particle effects like Fire, Snow, Painterly Styles, Rain, Bubbles, Sketches and more!

You can create animated textures, moving patterns, painterly looks and simulate all types of particle effects. All parameters are animatable over time, so you have full control of the look of the effect. All effects have been optimized for the PowerPC 604 chip in the latest Power Macintosh computers. All effects have full anti-aliasing, resolution support and are ready for productive use.

Suggested Applications

- VideoTape and Film Production
- Post production Special Effects
- CD-ROM and Game Development
- 3D Animation Production
- Training and Interactive Tutorials
- Interactive Sales And Marketing Kiosks
