VIDI approached tutorial development by asking professionals in the 3-D modeling and animation field to work with the beta software to produce a comprehensive series of tutorials; each with some basis in a real-world application.

Each of the tutorials contained in this guide was edited for style and content after final submission by its author. We look with pride and gratitude to the people who labored through the hardship, and frustration that comes from working with beta software.

LCB DREAMS, Inc.–Camera, Lighting, and Animation

LCB DREAMS, Inc., is a multi-cultural, multimedia production company dedicated to expanding your imagination and possibilities. Its principals include Lanette Brown, Constance Hightower, and Barbara Bernardin. They specialize in producing animations and multimedia presentations based on promoting cultural activities.
