### 1.2 the story

Robots.Bastards are every where taking over the earth with there pointed sticks and there fruit, leaking there damned oil everywhere. You could take it when they just cleaned up 'round the house and stuff but now that they've taken over the world and killed off the human race, well, thats it. As the last survivor of the human race your job is to reduce the scummy filthy SMELLY IGNORANT BAAAAASTARDS TO PILES OF RUBBLE, HA HA HAHAHAHAAAAH!!!!!!

There is one problem though:you have no weapons and if the robots touch you you are a dead little spiderfan. But luckily for you the robots are intensely stupid, so you must force them to crash into each other. Then they will die!!!

Just remember:

there may not be anyone left alive on the earth except you and it may be completely hopeless to even consider resisting but hey, it's your earth, right?

---

### 1.3 Gameplay

robots is kind of like a war game in that it is **turn based**.

the robots will always move towards your position after you've moved so the best way to end the lives of the scum is to get them into one line and then move laterally across that line.

robots is pretty simple so if you do succeed in getting a very high score then you will be asked to enter your name on the score table. This signifies your vague ability.

### 1.4 arctic?

moving in sequence, so that you take a move and they follow.

### 1.5 moving around

unfortunately these keys are not, as yet, redefinable:

## 1.30 thankyou one and all

- i'd just like to take this opportunity to thank my parents and colleages for a wonderful opportunity to learn about life

## 1.31 ooh you'd better register

this program is freeware ie: it is free and you can ware it. Ohh no wait a minute, thats not right is it? Um, oh yeah i know!! whilst it is copywrited to stewart it is free and you can pass it around to all your friends(perhaps have a party and put it on a plate with the cheese nibbles). But, should you alter it (or anything else in this budget sized pack-o-fun) then we will find you and rip off your head, just prior to sucking out your lungs. Howeverif you'd like to send some cash then you can send it to [me](#)
