

Download

Download journal.zip

• Just click the link above!
Don't attempt to right-click it and choose "Save Link As..." or "Save Target As..." - this will NOT work.
Feel free to email us if you can't get through it. The possibility to request the file to be emailed to you automatically will be added soon.

Online Journal is compressed into a zip archive. Once extracted, you will find these files:

1. **journal.cgi** - the script itself
2. **defaultconfig.pl** - general (default) configuration executable
3. **cgi-lib.pl** - Perl Routines library by Steven E. Brenner
4. **back.jpg** - background picture for sample output
5. **cover.jpg** - picture of Journal cover for sample output
6. **uphand.gif** - picture for "Go to Top" link for sample output
7. **index.html** - "dummy" index
8. **readme.txt** - another version of what you're reading

[Upload these 8 files in a directory; e.g.,
<http://yourdomain.com/cgi-bin/>]

9. **jheader.html** - header for all pages of this journal
10. **jfooter.html** - footer for all pages of this journal
11. **jconfig.pl** - individual configuration executable
12. **001.txt** - sample entry file

[Upload the remaining 4 files in a subdirectory within the first directory; e.g.,
<http://yourdomain.com/cgi-bin/journal/>]
