Dreamweaver 4

Ein/Aus	Installierte Erweiterungen	Version	Typ	Autor
<input checked="" type="checkbox"/>	 Flash Panel	1.2.6	Objekt	Jay Jam and Massim
<input checked="" type="checkbox"/>	 IE Link Scrubber	1.60	Befehl	Al Sparber
<input checked="" type="checkbox"/>	 Instant CSS101 by PVII	2.0	Befehl	A. Sparber, G. Jacot

Flash Panel is an object that allows you to insert a customized Flash Panel inside a Dreamweaver 4 or UltraDev 4 document. The panel looks, more or less, like the ones you find in airports and train stations.

You don't need Flash to use the Flash Panel extension, you just need the latest version of the Flash plug-in to view Flash Panels that you create.

Version 1.2 fixed a bug in the link functionality and added an integrated help button.

Very special thanks to Marcello Cerruti and all the friends for the help file.

You can run this object by choosing:

Insert > Flash Fx > Flash Panel or accessing it from the Objects panel
