Development Tools

### [AAA Link](#)

A small menu applet with a different look. E-mail addresses can be added to the links.

### [Abalis](#)

A free arcade applet with a lot of action and animations.

### [ABCMenuMan](#)

Fast loading menu applet that allows you to easily create mouseover effects, with as many menu items as you want!

### [ABCNavUltimateEval](#)

A cool navigation applet that displays a different special effect with each click of a link. Highly configurable and uses your images!

### [Absolute](#)

Shoot-em-all game with an innovative battle system. Source included!

### [AbstractSpace](#)

An animated starfield that's interactive! Just click and drag to change the appearance. Source included!
