

# WHAT PC? AND SOFTWARE

## Cover story

### 85 PC and Printer awards

In the second part of the *What PC?* annual awards, we concentrate on PCs, printers and peripherals. Once again, our team of specialist writers and contributors make their choice of the best computer hardware across a broad spectrum of categories. In the first section, we spotlight the best in PC technology

from palmtops to family desktops; and then we turn our attention to printers, monitors, modems and scanners, selecting the most impressive performers in each category.

## Features

### 124 Windows word processors

Word processors are becoming increasingly sophisticated. Features such as grammar checking, automatic page layout, and 'smart' auto-correction allow you to process your words as perfectly and painlessly as possible. Tim Nott evaluates eight of the latest Windows packages.

### 156 Internet service providers

Everyone wants to be on the Internet these days. Like mobile phones, getting connected is cheap; but it's important to know who will give the best service, and how much you will really end up paying. In this Special Report, Wendy Grossman puts the leading access providers to the test.

## Reviews

### 43 Up front

**Quicken 5 Deluxe for Windows** Personal finance manager.

# getting started

We provide advice and information to help guide the complete beginner or technophobe through the sometimes bewildering initial stages of buying and setting up a PC.

### 12 Getting started

### 17 Desktop PCs

### 21 Notebooks

### 24 Printers

### 28 Word processors

### 30 Image-editing software

### 140 Computer class

Jane Dorner tells you how to create your own home page on the Web. What's more, there's Microsoft software on offer for the best efforts.

### What PC? on the Web

If you have access to the Internet, you can now visit the *What PC?* Web site at: <http://www.vnu.co.uk/vnu/hc/wpc/>

## After hours

**169 Games** This month: we try another Doom clone, test a new Mpeg player, and join the space race in Wing Commander IV and Chronomaster. Plus, we've ten copies of the History of Medicine CD to give away.

**175 Family** We explore Mythical Creatures, Pocahontas, and Blender – a lifestyle magazine on CD-Rom.

**179 On line** Bored? Not on this surfboard: take a trip round Terry Pinnell's Internet.

## Cover CD

### 4 Summertime special

Here comes summer, and we're celebrating with a sizzling selection of software. Among the games demos: check out Cyril Cyberpunk; chalk up for Virtual Snooker; or go full-throttle with Apache Longbow. We've also got a wide range of utilities and applications.
