

Hands On Contents

■ *Hands On* is the place where readers can contribute to *PCW* and, as always, we'll pay for anything we use. Macros, sections of code, and hints and tips will be rewarded with a £20 book or record token (please say which you would prefer) and we will pay hard cash for longer, more involved pieces. Please include relevant screenshots in .GIF format. All submissions should be emailed to the author of the appropriate section or snailmailed to Hands On, Personal Computer World Editorial, VNU House, 32-34 Broadwick Street, London W1A 2HG. Questions and short hints and tips can be faxed on 0171 316 9313.

We are constantly working to improve the contents of Hands On. If you have any suggestions, send them to the Editor at the address above, or email them to pcw@vnu.co.uk

Workshop

Visual Basic 256

No second-class deliveries here as Tim Anderson uses Word to fill in forms and write his letters.

Operating Systems

Windows 95 260

Shift up a few gears — colour cycling doesn't always have to be an uphill struggle. Tim Nott brightens up your startup screen with DIY animations.

Windows 3.1 263

Three blind mice? Panicos Georghiades and Gabriel Jacobs find that faults and fixes often come in threes. And, don't shut your eyes to mouse problems.

Windows NT 266

Roll up, roll up for the main event. But don't ignore the event log because it, too, deserves some TLC and attention from time to time.

Unix 270

The bad news is that Chris Bidmead gets stuck installing the CDE CD on his system. And the good news? He stands his ground on past news.

OS/2 273

Ring the bells of St Clements as Terence Green gets fruity with his Windows 32 apps on OS/2.

Applications

Word Processing 276

Do the high five with Tim Nott as he creates A5 booklets in Word. Plus, tuning in to different accents, and coloured margins.

Spreadsheets 281

Get your results onto your web page. Help from Stephen Wells and Excel 97 means it's a pretty simple process.

Databases 285

Mark Whitehorn fastens his grip on his buttons and captions query from last month.

3D Graphics 298

Now we know the world isn't flat, how do we create a 3D globe on our PCs? Over to Benjamin Woolley.

Graphics & DTP 300

Don't huff and puff if a passer-by strays into your line of focus. Gordon Laing shows how to erase them to get the perfect holiday snap.

Sound 304

There are more to gates than five bars and keeping the cows in. As Steven Helstrip knows, they play a big part in today's dance music.

Programming

Numbers Count 290

And the beat goes on: Mike Mudge strikes a chord with mod sequences.

Visual Programming 307

Trust me, I'm a doctor... Tim Anderson finds that not all fixes are trustworthy. RegClean, available on the Microsoft web site, is one example.

and the rest...

Hardware 294

Roger Gann takes the headache out of getting connected. Put your foot down rather than grinding to a halt on the net hard shoulder.

Networks 313

Mark Baynes hogs the show as his server plays up. And, take a ride with him on the Netport Express.

Macintosh 318

Whatever NeXT? Howard Oakley wonders what's on the cards with Apple and deals the dirt on what's in your System Folder.
