

The **WHAT PC?** Printshop AND SOFTWARE

Welcome to What PC's? PrintShop. This section offers you the opportunity to view the "Hands On" section of Personal Computer World from the past twelve months and the entire issue of last months WHAT PC? in Adobe Acrobat format.

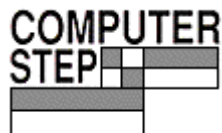

Personal Computer World Hands On includes hints, tips, and new information on a multitude of topics including Windows 95 and 3.11, Unix, OS2, Word Processing, Spreadsheets, Databases, 3D Graphics, Multimedia, Sound, Visual Programming, Hardware Networks and Macs

Last Months What PC? brings you the entire contents of the last issue just as they appeared in the magazine. From the contents page, click on the topic that interests you and go straight to relevant page.

To go to either of the sections now simply click on the relevant icon above. If you are new to Acrobat Reader, and would like more information on searching, browsing or general navigation around the sections click the "Navigation Help" icon.

This month we have a chapter from four books in searchable acrobat format. They are all part of the "In easy steps" series which have been developed and published by Computer Step. In concise language, easy to follow layout and in easy steps, this series explains all that's important for everyday use. Click on the logo to view the chapters and find out more.
