

Hands On Contents

■ *Hands On* is the place where readers can contribute to *PCW* and, as always, we'll pay for anything we use. Macros, sections of code, and hints and tips will be rewarded with a £20 book or record token (please say which you'd prefer) and we'll pay hard cash for longer, more involved pieces. Please include relevant screenshots in .GIF format.

All submissions should be emailed to the author of the appropriate section or snailmailed to Hands On, *Personal Computer World* Editorial, VNU House, 32-34 Broadwick Street, London W1A 2HG. Questions and short hints and tips can be faxed on 0171 316 9313.

We're constantly working to improve the contents of *Hands On*. If you have any suggestions, send them to the Editor at the address above, or email them to pcw@vnu.co.uk

Workshop

Visual Basic 246

Get to grips with VB objects and use them to build a powerful database. Tim Anderson shows you how in the first of a new, four-part tutorial.

Operating Systems

Windows 95 250

Tim Nott's magic tricks make folders disappear and turn your PC into a jukebox.

Windows 3.1 253

Fun with shareware, more cheats and 12 crafty tricks from Tim Nott.

Windows NT 258

Open those Perly gates and speak a different batch language, suggests Dale Strickland-Clark.

Unix 262

First, read the instructions... Chris Bidmead installs SCO OpenServer, but he should have looked before he leapt.

OS/2 265

Warp 4 gets a bit of verbal from Terence Green. And why not try Java on the *PCW* CD? he asks.

Applications

Word Processing 268

Tim Phillips looks at an OpenDoc word processor for your Macintosh, perfects your preview options and picks your problems apart.

Spreadsheets 271

Colourful words from Stephen Wells, and investment sense with spreadsheets.

Databases 275

Mark Whitehorn is your man of distinction this month, picking through the peculiarities of Access.

3D Graphics 286

Going skiing? Forget it. Benjamin Woolley surfs off to virtual worlds where *anything* is possible.

Graphics & DTP 288

Stained glass effects, electronic photography. Gordon Laing does it digitally.

Sound 292

Steven Helstrip beats the drum for better rhythm tracks, and mulls over net music. Plus, a set from Alibaba and the 40 Ravers.

Programming

Numbers Count 279

Numerology, or *numeralogy*: that is the question. Can you find the answer? Mathematical machinations with Mike Mudge.

Visual Programming 295

Tim Anderson steps up to have his say on the MS Active Platform. Plus, a preview of the VB Control Creation edition.

and the rest...

Hardware 282

Works hard but could do better... your printer might benefit from an upgrade, suggests Roger Gann.

Networks 301

The time has come for Mark Baynes to really take comms seriously. In the process, he briefs you on the basics of datacommunications.

Macintosh 311

New products for a new year, and spring cleaning. With Howard Oakley.
