

WinFast[®] TV Card

QUICK INSTALLATION GUIDE

Hardware Installation

Step 1:

Power off your PC. Open the computer case. Remove the coverplate of an unused expansion slot.

Step 2:

Align the bus on the card with the PCI slot.

Step 3:

Gently press the **TV Card** down into the slot until you feel the edge of the bus reaches the bottom of the PCI slot. Note that the capture card can be inserted into PCI slot in one direction only.

Step 4:

Secure the bracket of the card to your computer case with the screws. Then fit the computer case cover back in place.

Step 5:

Connect the input sources and output devices to your capture card following the instructions given in **Board Layout** in the previous section. Now you are ready to connect the video sources to your capture card.

Driver & Application Installation

Step 1:

Power on your PC and start up Windows. You will see the **New Hardware Found** information shown on the screen a few times, followed by a dialog box titled **Add New Hardware Wizard**. Click **Cancel** to dismiss this dialog box.

Step 2:

Insert the software CD in your CD-ROM drive. The setup screen will then appear. Click **WinFast Entertainment Center**.

Step 3:

Select the language you use. And then click **OK**.

Step 4:

The InstallShield Wizard starts to prepare for the installation. The progress is shown in the dialog box.

Step 5:

The WinFast Entertainment Center 2in1 setup panel shows the welcome information. Click **Next** to start the installation of the driver.

Step 6:

Another dialog box shows the setup status with a progress bar. Wait until the bar is filled. Clicking **Cancel** will exit the setup.

Step 6-1:

If some warning messages appear, click **Continue Anyway**.

Step 7:

When the driver installation is completed, the complete dialog box appears asking if you want to restart your computer. Click **Yes,.....** and then **Finish**. (If the latest version of DirectX has not been installed on your system, please follow the on-screen instructions to install the new DirectX. The system will automatically reboot after the installation is completed.)

Step 8:

After rebooting the computer, the **Choose Setup Language** dialog box appears again. Select the language you use and then click **OK**.

Step 9:

The InstallShield Wizard shows the welcome message of the application installation. Click **Next** to start the installation of the application.

Step 10:

A license agreement appears on the screen. Click **Yes** to continue.

Driver & Application Installation

Step 11:

InstallShield Wizard will next prompt you to choose the destination location for the application. To use the preset location as shown in the lower part of the panel, simply click **Next** to go to the next step. If another location is desired, click **Browse** to choose a location.

Step 12:

The InstallShield Wizard starts to install the application. The progress is shown in the **Setup Status** dialog box.

Step 13:

During the installation a Microsoft Windows Media Format License agreement appears stating the terms of using Windows Media Player codecs. Click **Yes**.

Step 14:

A dialog box prompts you to exit all other applications before installing the Windows Media Player Codecs. Click **Yes**.

Step 15:

Another Microsoft license agreement appears stating the terms of using Windows Media Player codecs. Click **Yes** to continue.

Step 16:

The Windows Media Component Setup welcome message appears. Click **Next**.

Step 17:

The setup program will next ask you if you want to update your component or reinstall the component entirely. Tick your desired option and then click **Next**.

Step 18:

The setup program will then show a list of components. Make sure the component check boxes are checked. And then click **Next**.

Step 19:

The setup program is now ready to install the Windows Media components. Click **Next**.

Step 20:

When the setup has completed, click **Finish**.

Step 21:

The entire installation of the application is completed, click **Finish**.
