

# The HP PhotoSmart Digital Camera

PhotoSmart

## Capture

- see your photos instantly on your PC

## Create

- complete control over what photos you print and how they will look

## Share

- in moments your photo can be e-mailed over the internet

## Capture the moment and see it in seconds

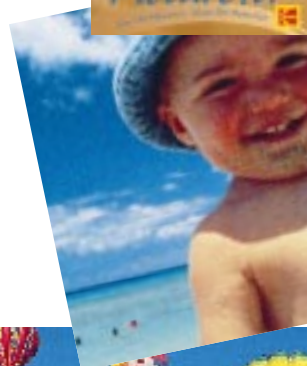

The HP PhotoSmart Digital Camera lets you download your shots right onto your PC and see them in seconds. You can select, edit, revise and reshoot as many times as you like - you are in complete control of how you want your photos to look.

The camera has fully automated, flash, exposure and focus, so you get the best results every time. The added Microsoft® Picture It!™ software lets you enhance your shots and create exciting and personal photo projects - ready to be shared electronically or printed out for a lasting, real photo quality momento.

Used with the HP PhotoSmart Scanner, HP PhotoSmart Photo Printer and HP Photographic Supplies, you have everything you need to set up a virtual home photo lab using your own home PC!

## The camera that will transform the way you process photos

- reusable memory card eliminates tedious processing of film
- quickly view and print only your best shots
- inclusive Microsoft Picture It! software lets you create greeting cards, diaries, newsletters and much more
- simple to use and fast PC connection
- great close ups as near as 6 cm
- immediate prints and reprints - no reprocessing negatives
- photos and projects you can share in minutes with family and friends
