

The HP PhotoSmart Photo Scanner

PhotoSmart

Capture

- scans any image into your PC

Create

- edit your image as you please

Share

- our scan is ready to print or send electronically in minutes

The only home scanner that scans negatives, slides and prints

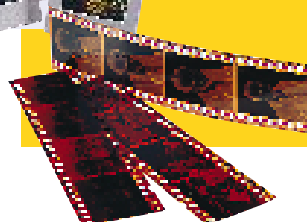

Now you can incorporate any images into your photo projects. Scan from 35mm negative, slide and photo prints. A special photo sleeve is included to make scanning items such as fragile old photos or magazine clippings easy to do.

The HP PhotoSmart Scanner comes complete with HP PhotoSmart Software for easy manipulation of your total image area. It launches automatically when you insert your slide, negative or photo. You also get Microsoft® Picture It!™ software that lets you enhance further your scans and make your creative ideas a reality.

Used in combination with the HP PhotoSmart Digital Camera, HP PhotoSmart Photo Printer and HP Photographic Supplies, you can create innovative, entertaining and lasting momentos and photography based projects that are fun for the whole family.

A scanner to deliver the best results

- scans a variety of sizes and objects - slides, negatives and prints up to 13 x 18cm for highest possible picture quality
- fast - preview scans in 10 seconds, final scans in 40 seconds
