

The primary method of obtaining new cars in **Carmageddon: TDR 2000**, will remain the Wrecks Gallery. Additional car(s) are unlocked through obtaining the *Muffy Bonus*.

Wrecks Gallery

At the end of each race (excluding missions and multiplayer), players are given an opportunity to purchase the vehicles that they destroyed in the course of that race.

Vital statistics of each car will be displayed next to pictures of them, detailing:

Acceleration (0-100kph/sec)

Top Speed

Pushing Power (torque/nm)

Pulling Power (kilowatts)

Strength (rating out of 10)

Offence (rating out of 10)

Price

A brief, overall description of the car

Selling Cars

Players will be given the option to sell any of their cars. This is helpful if players wish to quickly raise credits to upgrade or buy a particular 'wrecked' vehicle.

However, the re-sale price will be significantly less than the purchase price – about one third.
