Players: 1
Ages: All Ages
RRP: 24.99

Genre: Killer Driving Game
Release Date: September 99
Updated: 8.7.99

Background

The most controversial, multiple award winning* racing game ever has just arrived on the Game Boy Color™. **Carmageddon™** brings a completely new dimension to conventional racing games and gives the platform a spark of new life – or death & destruction as the case may be!

The Game

True to form, **Carmageddon™** on the Game Boy Color™ includes the unique **Carmageddon™** formula that we've grown to love. The game, developed from scratch, offers a totally new angle in the series and offers fantastic new gameplay, tracks, levels and missions. Taking on the character of Max Damage you have total freedom to play the game any which way you want: play the tracks; waste your opponents; or rack up the points by ridding the world of hideous zombie mutations. Discover pick-ups such as the 'slaughter mortar' for that extra killing edge. It's total freedom, there are no rules – just drive to survive!

*Best Driving Game of the Year– PC Zone Reader Awards 1997, 1998

Features

- Designed from scratch especially for the Game Boy Color console.
- Total freedom to race, chase and annihilate anywhere on the map.
