Questions? Call 1 800 400-1447

We're here to help you, 24 hours a day, 7 days a week.

Welcome!

Thanks for choosing AT&T WORLDNETSM Service — an exciting new world of opportunity, fun, and excitement.

Brought to you by the global leader in communications and networking, AT&T WORLDNETSM Service delivers everything you need to make the most of the wealth of experiences you can find on the World Wide Web. Just follow the simple instructions in this booklet, and soon you'll be exploring the Internet as a registered AT&T WORLDNETSM Service member.

About your computer system

Make sure your system meets these minimum requirements:

- IBM compatible 386SX computer (486 recommended)
- 8 MB of RAM (or more for better performance)
- 11 MB of available hard disk space
- VGA card and monitor capable of displaying 256 colors
- 14,400 bps modem connected to an outside phone line
- Microsoft® Windows 95

Windows 95 note: If *Dial-Up Networking* is not installed, have your Windows 95 CD-ROM or disks handy (see page 32).

About AT&T WorldNetSM Service

To register, you must provide the following information:

- Your **registration code** (printed on the address label)
- Your **credit card** number (MasterCard®, VISA®, or American Express® card; charges will appear monthly on your statement)
- An **E-mail ID** and **password** of your choice (so you can send and receive electronic mail)
- A **security word** of your choice (to verify your identity if you update your account information)

During registration, you must select a **pricing plan**. Hourly and unlimited usage access options are available. After you become a member, you may change your pricing plan by updating your account online, sending an electronic mail message to wnetbill@attmail.com, or contacting AT&T Customer Care at 1 800 400-1447.

Finally, you must select an **access telephone number** (the number your modem dials for access to AT&T WORLDNETSM SERVICE). For a complete list of numbers, see page 24.

Installing the AT&T WorldNetSM Service software

First, make sure your modem is ready to go — that is, it should be turned on (if external) and configured for Windows 95. Make sure Windows 95 is running, and close all open applications and folders, including *Dial-Up Networking*, on the desktop and taskbar.

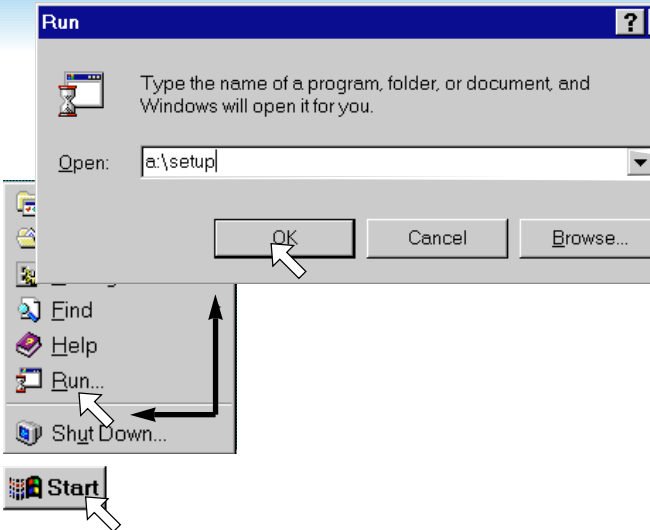

CD ROM installation: Insert your AT&T WORLDNETSM SERVICE CD-ROM disk. Software installation will begin automatically.

Floppy disk installation: Insert the AT&T WORLDNETSM SERVICE software (Disk 1 of 3) in your drive. Click the *Start* button on the Windows 95 desktop (see next page). Click *Run*, then type a:\setup (or change the “a” to a different letter if the software is in another drive). Click *OK* to begin software installation.

If *Dial-Up Networking* is not installed, you will be asked if you want to install it. We recommend that you install it now. To install it later, see page 32.

If you need assistance during installation, see the **If You Need More Help** section beginning on page 30 for solutions to problems like these:

- If Windows 95 is not configured for your modem, see page 30.
- If Netscape Navigator 2.0 software is already installed on your computer, see page 35.

If you're already an AT&T WORLDNETSM SERVICE member:

If you're upgrading from an earlier version of AT&T WORLDNETSM SERVICE software, do not install the new software in the same folder. Use the default instead (c:\Program Files\WorldNet).

After you run Setup, see page 36 for instructions on how to complete your upgrade quickly.

Setting up your account

After the software is installed, several icons are displayed in your new folder. To set up your account, double click the account setup icon as shown below. If you see the message “You must log on to your PC before registering,” see page 34.

Double-click this icon to begin. When the first Account Setup screen appears, click **Next** to continue.

At the second screen, select the “create account” option, then click the **Next** button to continue.

To set up your account you must answer a series of questions about you, your credit card preference, your modem type, and your phone.

At the “Modem Information” screen, click **Next** if a modem name is displayed in the box. If the box is empty, or if the wrong modem is displayed, please turn to page 30 for help.

Fill in the blanks on each screen, then click the **Next** button to continue as you complete each screen.

The screenshot shows a Windows-style dialog box titled "Account Setup Wizard". On the left is a graphic with the text "AT&T WorldNet Service" and an image of the Earth. The main area is titled "Personal Information" and contains several text input fields: "Name (Business accounts: Name of designated user)", "Name of Business (Required for business accounts)", "Address 1 (Street)", and "Address 2 (P.O. Box, P.O. Box, Apt. Number)". Below these are fields for "City", "State", and "Zip". At the bottom are four buttons: "Help", "< Back", "Next >", and "Cancel". A white arrow points to the "Next >" button. Three black lines originate from the text instruction above and point to the input fields for Name, Business Name, and Address 1.

Click **Next** after you complete each page. Click **Finish** on the last page to transmit your member information to AT&T using a private, toll-free number. Your information is kept strictly confidential.

Completing your registration

The last step in registration is to review and complete the information you entered while setting up your account. If the system finds an error, the screen is redisplayed with a STOP sign to show where you must enter the correct information.

Registration Code Information

Enter your registration code as printed on the top of the address label on your **AT&T WorldNetSM** Service Kit. If you do not have a registration code, please call the AT&T Customer Care Center on 1 800 400-1447.

Registration Code: **17MQFM631**

Enter the 9-character registration code printed on the address label of your **AT&T WORLDNETSM SERVICE** software package

Your Expert Software user registration codes are:

For AT&T Long Distance Subscribers enter....**17MQFM631**

For AT&T Non-Subscribers.....**17MQFM632**

During registration you must choose an Account Information security word, an E-mail ID, and an E-mail password. If you enter an E-mail ID that is already in use, you'll be asked to enter another one. You can use any form of your name. For example, you might use your initials, or spell out your middle name, to make it unique.

You can record your E-mail information below for future reference. Do not disclose your password, your security word, or your account information to anyone.

Your E-mail ID _____

(cannot contain spaces or any special characters except hyphens or periods)

Your E-mail password _____

(this word is case sensitive; that is, "PassWord" is not the same as "password")

Click *Continue* after you review each page. Click *Finish* at the last page to complete your registration. Afterward, be sure to restart Windows 95 when prompted so your computer is configured properly to run the software.

This is a good time to back up your account information. See page 39 for further information.

Please note: If you are disconnected during registration, select the *Double Click to Set Up Account* icon, or symbol, to start over. At the opening screen, choose the *I need to create an AT&T WorldNetSM Service account* option.

Browsing the Internet

Congratulations! As a new member of the AT&T WORLDNETSM Service, you're ready to explore the wide world of the Internet.

After you've completed registration, you can gain access to the Internet at any time by double-clicking the AT&T WORLDNETSM Service icon on your desktop or in the AT&T WORLDNETSM Service folder.

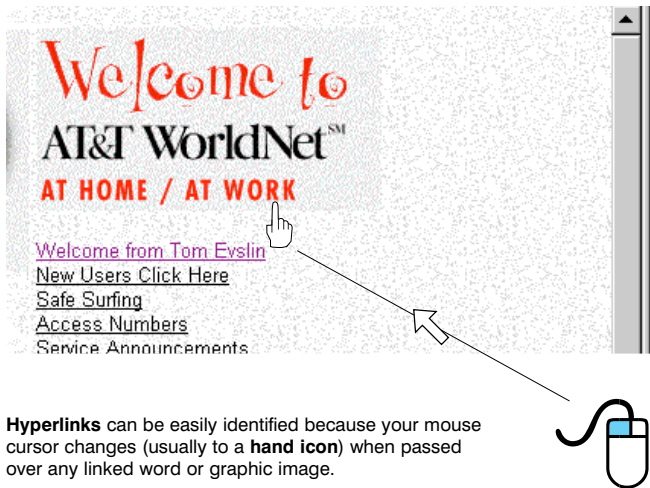

DO NOT CHANGE
your user name
or password.

Click **Connect**
to begin

A screenshot of the "Connect To" dialog box for AT&T WorldNet Service. The dialog box has a title bar that says "Connect To". Inside, there are several fields and buttons. The "User name" field contains the text "1234567890123456789012345678901234". The "Password" field is empty. Below these fields is a checkbox labeled "Show password". The "Phone number" field contains the text "5551234". The "Destination" field has a dropdown menu showing "Home". At the bottom right, there are two buttons: "Connect" and "Cancel". A white arrow points to the "Connect" button.

After a moment, you'll see the AT&T WORLDNETSM Service home page on the World Wide Web (www). The simplest way to begin browsing the Internet is to start here, and begin clicking on *hyperlinks* to explore your options.

Hyperlinks are special words or graphics in a document that contain the address of another document. By clicking on these hyperlinks, you can explore many thousands of sites, services, and information sources across the country and throughout the world.

Hyperlinks can be easily identified because your mouse cursor changes (usually to a **hand icon**) when passed over any linked word or graphic image.

How to get help and advice

Before you begin exploring the Internet, you might want to take a moment to check two useful sources of information.

If you're new to the Internet, click on the *New Users* hyperlink for a quick explanation of unfamiliar terms and useful advice about exploring the Internet.

The *Help* menu contains detailed information that may be of use even to more experienced users of the Internet.

If you need help with installation, registration, or use of the software, check the *Troubleshooting Guide* in the AT&T WORLDNETSM SERVICE folder (see page 30).

Note: You must click **Disconnect** to end your connection to **AT&T WORLDNETSM** Service (see page 38).

Help menu

- **About AT&T WORLDNETSM Service:** Shows software version information.
- **Netscape Navigator Handbook:** A guide to AT&T WORLDNETSM SERVICE software.
- **Where to Get More Help:** Takes you directly to AT&T WORLDNETSM SERVICE Member Services for technical support and online help with account, billing, and child safety concerns.

New Users Click Here

New to the Internet? Click here for a quick description of the Internet and tips to make browsing easier.

Using your AT&T WorldNetSM Service software

The AT&T WORLDNETSM SERVICE software makes Internet browsing fast and simple. For a more detailed description of these and other program features, click the *Help* menu and select *Netscape Navigator Handbook*.

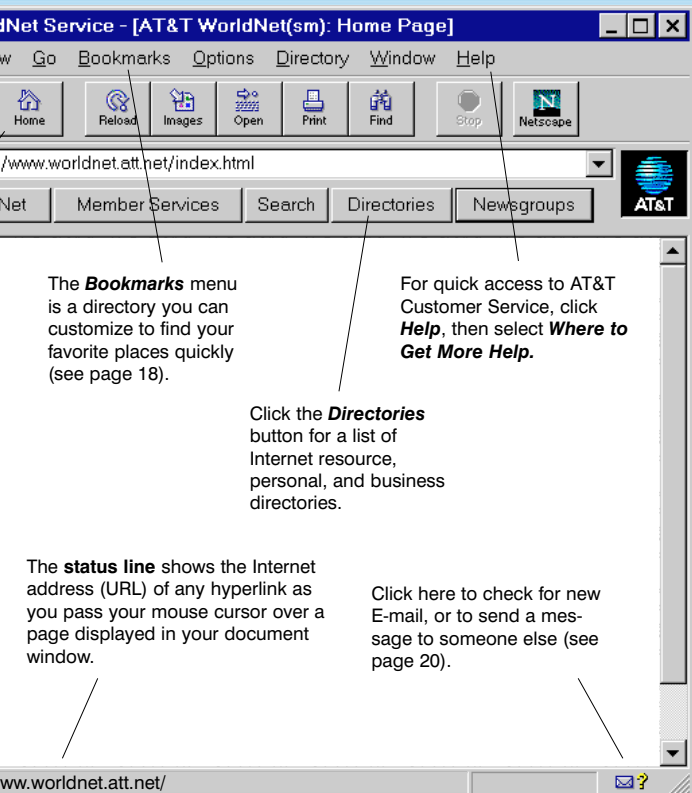

To create more room for Internet pages, you can make your document window larger by “hiding” the Toolbar and Directory buttons if you don’t often use them. Click the **Options** menu to display a list of features you can show or hide.

It’s easy to get lost in the worldwide maze of the Internet. No matter where you are, you can always start over by clicking **Home** to return to **AT&T WORLDNETSM Service**.

TIP: While browsing Internet documents, click your **right** mouse button for quick access to many frequently used features.

Bookmarks make browsing easy

Bookmarks allow you to keep track of your favorite Internet sites, so you can return to them whenever you want. Click on the **Bookmarks** menu to see a list of sample sites. You can go directly to a site by clicking on any item in the list.

As you browse the Internet, you can add sites to the list by clicking **Bookmarks | Add Bookmark** (or just press Ctrl+A on your keyboard).

Click **Bookmarks | View Bookmarks** (or press Ctrl+B) to open a new window showing all bookmarks. You can use the **File**, **Edit**, and **Item** menus to customize your list, by adding or moving categories or specific sites.

Double-click any category to show or hide its contents.

Sending and receiving E-mail

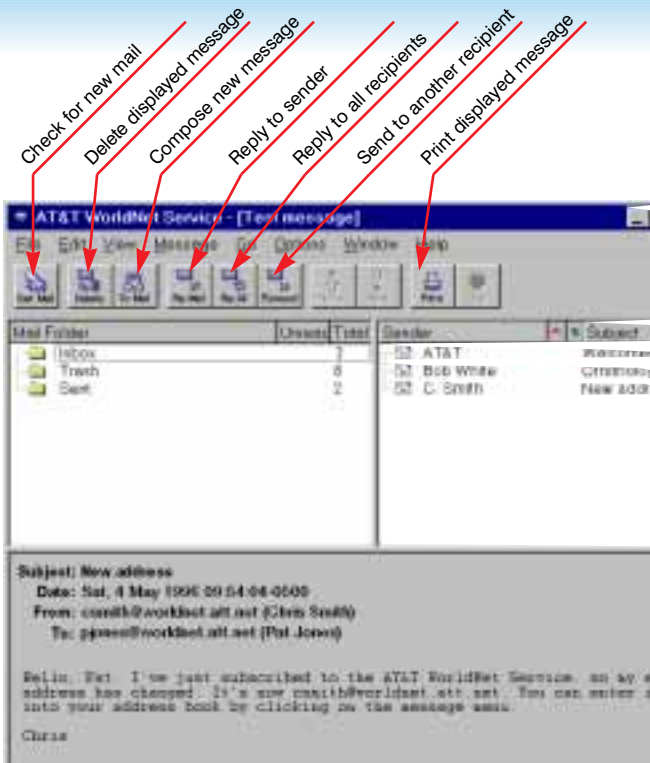

On AT&T WORLDNETSM Service, you can exchange E-mail with anyone in the world who has access to the Internet. To send or receive mail, select *Window | AT&T WorldNetSM Service Mail* (or click the E-mail icon at the lower right edge of your screen).

To receive messages, you should let others know your E-mail address. Your address is your E-mail ID followed by @worldnet.att.net. For example, the address of a person using the ID “pjones” would be: **pjones@worldnet.att.net**.

TIP: To check quickly for new mail, click on the envelope icon, at the lower right edge of your screen.

Using Netnews

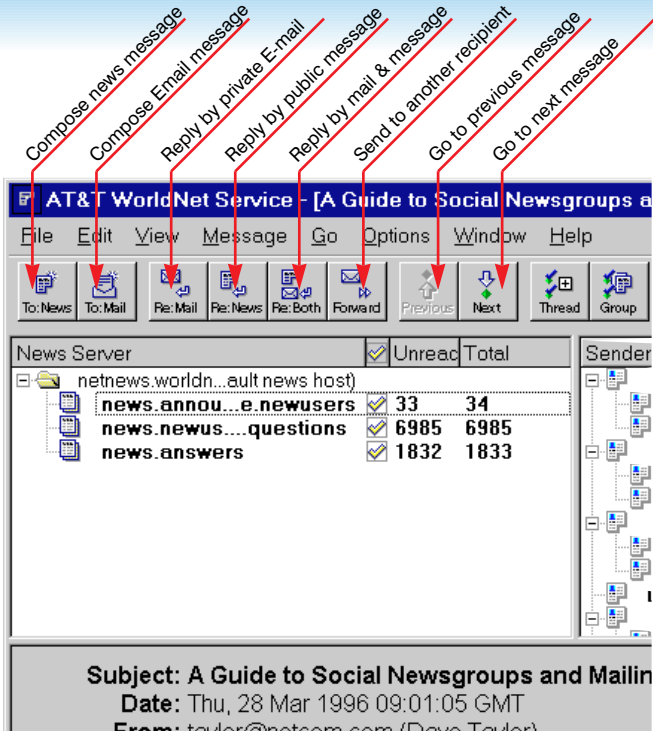

Netnews works like a global bulletin board, where people all over the world can post, read, and respond to messages organized by topic, or newsgroup.

Click the *Newsgroups* button to begin using Netnews. The News window will display a sample list of newsgroups. You can view more by clicking *Options | Show All Newsgroups*. To subscribe to any newsgroup, click the check box next to the group name.

Click on any newsgroup to see the list of messages it contains. You can reply to any message by clicking the *Message* menu, or submit a message of your own by clicking the *File* menu.

Click here to open your Newsgroups window

Access telephone numbers

During registration, the AT&T WORLDNETSM SERVICE software suggests an access telephone number for you. If you prefer to use a different one, you can use any number listed here.

If you have selected one of your local phone company's calling plans, you may want to ask them whether the access number you select is covered by the plan.

If none of the numbers listed here are acceptable, ask your local telephone company about optional calling plans in your area that may allow you to use one of the numbers listed here at a reduced rate.

Otherwise, you can use the number **1 800 543-3279** for an additional charge of \$4.50 per hour (about 8 cents per minute). This number can be convenient to use when you're away from home.

To change your access telephone number, right-click your AT&T WORLDNETSM SERVICE connection in the *Dial-Up Networking* folder. Select *Properties*, enter the number where indicated, then click *OK*.

If you need more help

Troubleshooting Guide

Click the *Troubleshooting Guide* icon in the AT&T WORLDNETSM SERVICE folder for helpful tips and advice about installation, registration, and use of the software. In the Troubleshooting Guide, you'll find complete answers to questions and problems like the ones described in this section.

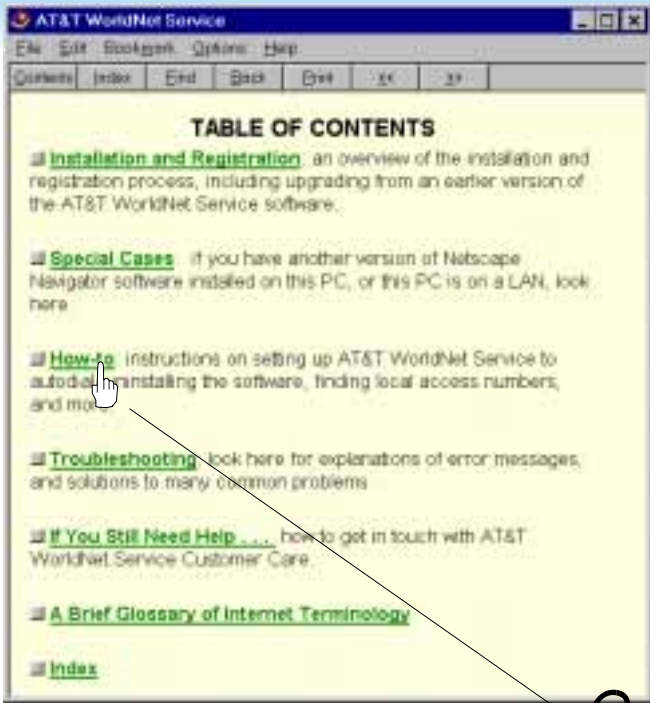

Configuring Windows 95 to work with your modem

- 1 Click *Start* on the Windows 95 taskbar.
- 2 Select *Settings*, then click *Control Panel*.
- 3 Double-click *Modems*.
- 4 If your modem is listed under the "General" tab, it has been configured to work properly. If not, click *Add*, then follow the instructions on screen.

Questions? Call 1 800 400-1447

We're here to help you, 24 hours a day, 7 days a week.

Click any topic for
more detailed
information

If you need more help (continued)

Installing Windows 95 Dial-Up Networking

You'll need your Windows 95 CD-ROM or disks to install *Dial-Up Networking*.

- 1 Click **Start** on the Windows 95 taskbar.
- 2 Select **Settings**, then click **Control Panel**.
- 3 Double-click **Add/Remove Programs**.
- 4 Click the **Windows Setup** tab.
- 5 Select **Communications** (but do not click the check box next to it). Click the **Details** button.
- 6 Select the **Dial-Up Networking** check box, then click **OK**.
- 7 On the **Windows Setup** tab, click **OK**. When prompted, insert your Windows 95 CD-ROM (or disks) to begin software installation.

Note: Do not restart Windows 95 until you have added the TCP/IP protocol (see next page).

After Dial-Up Networking is installed, follow these steps to add the TCP/IP protocol:

- 1 Click *Start* on the Windows 95 taskbar.
- 2 Select *Settings*, then click *Control Panel*.
- 3 Double-click *Network*.
- 4 On the *Configuration* tab, click *Add*.
- 5 Double-click *Protocol*.
- 6 Select *Microsoft* from the “Manufacturers” column. Select *TCP/IP* from the “Network Protocols” column.
- 7 Click *OK*. Windows 95 will then install the appropriate software.
- 8 When prompted, restart Windows 95. You will be prompted to enter a user name and password. Do not click *Cancel*. Enter your name and an optional password. If you choose not to enter a password, you will be logged in to Windows 95 automatically whenever your computer is restarted. Click *OK* to continue.

If you need more help (continued)

Logging onto Windows 95

When you set up your account, you may see this message:

“When using the Internet, Windows 95 requires users to log on to their computers. If you have a logon, please restart the computer and enter it.”

This message means that you are not logged on to Windows 95. To log on, follow these steps:

- 1 Click **Start** on the Windows 95 taskbar.
- 2 Select **Shut Down...**
- 3 Select the option “Close all programs and log on as a different user.” (If this option does not appear, consult the *How-to* section of the *Troubleshooting Guide*, under the heading “How to install the client for Microsoft Networks.”)
- 4 Click the **Yes** button.

Windows 95 will restart, and you will be prompted to enter a user name and password. Do not click *Cancel*. Enter your name and an optional password. If you choose not to enter a password, you will be logged in to Windows 95 automatically whenever your computer is restarted. Click **OK** to continue.

Netscape Navigator 2.0 software is already installed

Please note that special care must be taken if you want to maintain both AT&T WORLDNETSM SERVICE software and another copy of Netscape Navigator 2.0 on the same computer.

Do not install AT&T WORLDNETSM SERVICE software in the same folder as your Netscape Navigator software. The default folder selected during Setup is recommended (c:\Program Files\WorldNet).

After installation, click the *Troubleshooting Guide* icon in the AT&T WORLDNETSM SERVICE Services folder to learn which Windows 95 settings are shared between AT&T WORLDNETSM SERVICE and Netscape Navigator 2.0 software, and to learn how to maintain them. This information can be found in the *Special Cases* section of the guide, under the heading “When You Have More Than One Installation of Netscape Navigator Software 2.0.”

If you need more help (continued)

Upgrading from an earlier version of AT&T WorldNetSM SERVICE software

If you've installed an earlier version of AT&T WorldNetSM SERVICE software, follow these steps to upgrade your software quickly:

- 1 Double-click the *Double Click to Set Up Account* icon in your *AT&T WorldNetSM Service* folder.
- 2 Click *Next* on the opening screen.
- 3 At the "Updating Your Dialing Information" screen, select *Yes*, then click *Next*.
- 4 At the "Modem Information" screen, make sure that the correct modem is displayed, then click *Next*. If no modem (or the wrong modem) is displayed, select *Cancel*. If you are asked to restart Windows, select *Restart Later*. Follow the instructions on page 30 to configure Windows 95 for your modem, then return to step 1 on this page.
- 5 At the "Exploring the Internet" screen, click *Finish* to complete your software upgrade.

When prompted, restart Windows 95 to configure your system properly. Keep your **E-mail password** handy, since you will have to re-enter it the first time you use E-mail services with your new software.

Dial-Up Networking has lost my password

Follow these steps if you see the error message: *“Unable to connect to remote computer. Check your password and then try again.”*

- 1 Double-click the *Shortcut to AT&T WorldNetSM Service* icon to display your user name (similar to 123456789@worldnet.att.net) and password (*****).
- 2 Open the *AT&T WorldNetSM Service* folder and double-click on the *Troubleshooting Guide* icon.
- 3 Click *Table of Contents*, then click *How To*.
- 4 Click *Backup your AT&T WorldNetSM Service account information* and follow the instructions on screen. Select *Account Summary Only*.
- 5 Check the *Connect To* window to make sure the “User Name” field contains the same information as the “Network login name” information in your account summary.
- 6 Copy the contents of the “Network password” field (in your account summary) to the password field of the *Connect To* window.
- 7 Make sure there is a check mark in the “Save Password” box.
- 8 Click *Connect* for access to AT&T WORLDNETSM Service. (Note that Windows 95 will not save your password until you have used it to log on to the service.)

If you need more help (continued)

Telephone line does not disconnect automatically after exiting from the AT&T WorldNetSM Service software

Closing the AT&T WorldNetSM Service software does not automatically disconnect you from the Internet.

To close the connection, click *Connected to AT&T WorldNetSM Service* on your Windows 95 taskbar, which opens a connection status window. Click *Disconnect* to close the connection and hang up your phone line.

If your connection is idle for 20 minutes, the software will ask you if you want to disconnect from the Internet. To change this time interval:

- 1 Click your *right* mouse button on the *AT&T WorldNetSM Service* icon (on the Windows 95 desktop).
- 2 Select *Properties*.
- 3 To turn the automatic disconnect feature on or off, click the *Auto Disconnect* check box.
- 4 When the automatic disconnect feature is on, enter the time interval you prefer. The software will disconnect from the Internet after the period of inactivity you select.

Backing up or moving your account information to another PC

Complete instructions on how to back up your account information, or move it to another PC, can be found in the Troubleshooting Guide. To review this information:

- 1 Double-click the *Troubleshooting Guide* icon in your *AT&T WorldNetSM Service* folder.
- 2 Click *Table of Contents*.
- 3 Click *How-to*.
- 4 Click *Back up your AT&T WorldNetSM Service account information*.

Note: An AT&T WORLDNETSM Service account may be used on more than one PC only under specific conditions. Click *Terms and Conditions* on the AT&T WORLDNETSM Service home page to see a copy of your service agreement.

Questions? Call 1 800 400-1447

We're here to help you, 24 hours a day, 7 days a week.

Windows 3.x Users:

Before you begin

Typically, you will need 30 minutes to install, register and log on to your AT&T WorldNetSM Service account. Should you require assistance at any point in the process, call AT&T WorldNetSM Service Customer Care at 1 800 400-1447.

Installation tips

When installing the software, please follow the instructions for set-up. At the end of installation, your computer will restart. *Don't forget to click on "RESTART WINDOWS" because you will not be able to register until you have done this.*

Once you've installed the CD-ROM, the software will "call" AT&T to register you as a new customer. *If you experience a modem problem, try selecting Hayes Compatible. If this does not work, call customer care at 1 800 400-1447.*

During the registration process you will be asked to:

- Choose a special "security code" that you will use to verify who you are when you call customer care.
- Tell us whether you are an AT&T Long Distance Service customer so that you can receive the 5 free hours a month usage plan.
- Choose an e-mail address identification that will be your "name"

on the Net.

- Choose an e-mail password that you will use to create your AT&T WorldNetSM Service account.

System Requirements

To run AT&T WorldNetSM Service you need:

- An IBM-compatible personal computer
- 80386X processor (or better) Microsoft® Windows® 3.1X or Windows 95
- 8MB RAM and 11MB of free hard disk space
- 14.4 bps (or faster) modem and a phone line not connected to a Local Area Network (LAN)

Getting Started

To Install AT&T WorldNetSM Service, simply:

- Turn on your computer and modem, start Windows, and close all other applications, Microsoft OfficeTM.
- Insert Disk 1 into your floppy disk drive (A or B)
- From the Program Manager, choose File/Run
- Type A:\setup (or B:\setup)

- Choose OK
- Follow the instructions on your screen to register for AT&T WorldNetSM Service. (During registration, you will be prompted to enter a valid MasterCard, Visa, or American Express Card number. Please read through the AT&T WorldNetSM Service terms and conditions before you register.

Be sure to check for error messages. In order for your account information to be accepted, you must enter the information fully and correctly.

If you make a mistake and exit the registration process prematurely, all you need to do is click on “Create New Account.” Do not click on “Edit Existing Account.”

Complete all three stages of registration. A check mark will be displayed next to each stage when you have successfully completed it.

When choosing your AT&T WorldNetSM Service access telephone number, you will be given several options. Please choose the one nearest to you.

How to get help and advice

Before you begin exploring the Internet, you might want to take a moment to check two useful sources of information.

If you're new to the Internet, click on the *New Users* hyperlink for a quick explanation of unfamiliar terms and useful advice about exploring the Internet.

The *Help* menu contains detailed information that may be of use even to more experienced users of the Internet.

If you need help with installation, registration, or use of the software, check the *Troubleshooting Guide* in the AT&T WORLDNETSM SERVICE folder (see page 30).

Note: You must click **Disconnect** to end your connection to **AT&T WORLDNETSM** Service (see page 38).

Help menu

- **About AT&T WORLDNETSM Service:** Shows software version information.
- **Where to Get More Help:** Takes you directly to **AT&T WORLDNETSM SERVICE** Member Services for technical support and online help with account, billing, and child safety concerns.

New Users Click Here

New to the Internet? Click here for a quick description of the Internet and tips to make browsing easier.

Using your AT&T WorldNetSM Service software

The AT&T WORLDNETSM SERVICE software makes Internet browsing fast and simple. For a more detailed description of these and other program features, click the *Help* menu and select *Netscape Navigator Handbook*.

To create more room for Internet pages, you can make your document window larger by “hiding” the Toolbar and Directory buttons if you don’t often use them. Click the **Options** menu to display a list of features you can show or hide.

It’s easy to get lost in the worldwide maze of the Internet. No matter where you are, you can always start over by clicking **Home** to return to **AT&T WORLDNETSM Service**.

TIP: While browsing Internet documents, click your **right** mouse button for quick access to many frequently used features.

The **Fav**

Click here to check for new
E-mail, or to send a mes-
sage to someone else (see
page 20).

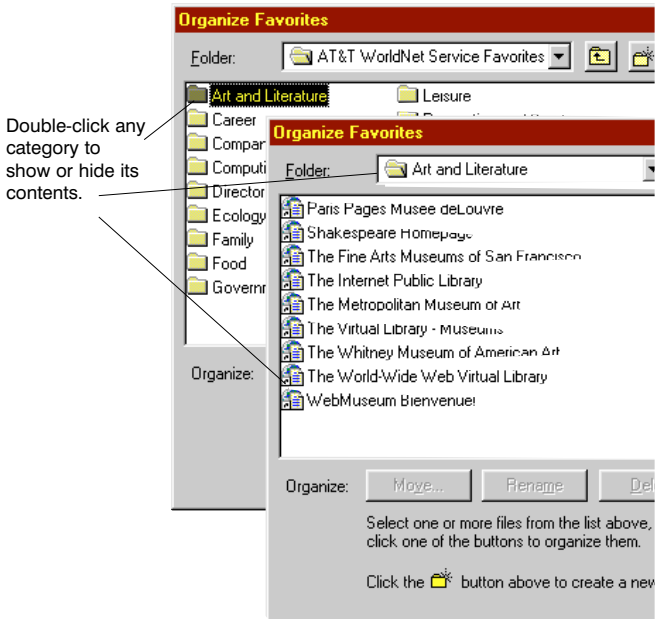

Favorites make browsing easy

Favorites allow you to keep track of your favorite Internet sites, so you can return to them whenever you want. Click on the *Favorites* menu to see a list of sample sites. You can go directly to a site by clicking on any item in the list.

As you browse the Internet, you can add sites to the list by clicking *Favorites | Add Favorites* (or just press Ctrl+A on your keyboard).

Click *Favorites* | *View Favorites* (or press Ctrl+B) to open a new window showing all favorites. You can use the *File*, *Edit*, and *Item* menus to customize your list, by adding or moving categories or specific sites.

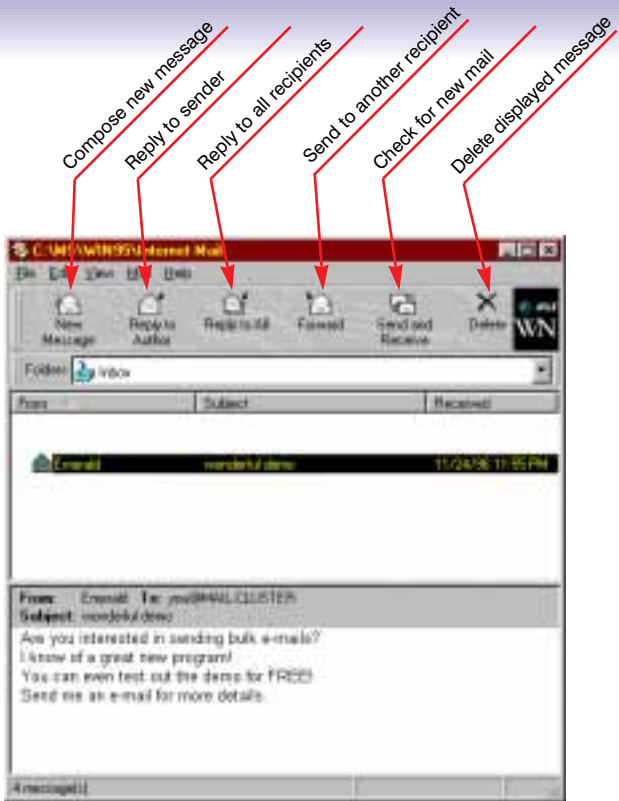

Sending and receiving E-mail

On AT&T WORLDNETSM Service, you can exchange E-mail with anyone in the world who has access to the Internet. To send or receive mail, select *Window | AT&T WorldNetSM Service Mail* (or click the E-mail icon at the lower right edge of your screen).

To receive messages, you should let others know your E-mail address. Your address is your E-mail ID followed by @worldnet.att.net. For example, the address of a person using the ID “pjones” would be: **pjones@worldnet.att.net**.

TIP: To check quickly for new mail, click on the envelope icon, at the lower right edge of your screen.
