Description

Tray/X is a 32-bit light ActiveX control that allows your application to display an icon (with tool tips) in the system tray. It is often desirable to display an application in the system tray rather than on the taskbar if the application generally runs unattended or with little user input.

In addition to conserving taskbar real estate, running your application in the tray minimizes the likelihood that users will interfere with the application's functionality yet still provides them with access to its interface. With Tray/X, you can customize the ToolTip when the mouse is over the icon, control whether the icon is visible or hidden, and easily change the icon to indicate application activity.

Tray/X has a complete set of mouse events, including a RightClick event, to make it easy for you to respond to the user.

File Name

MTRAYX.OCX

ActiveX / OCX Object Name

Mabry.TrayX

ActiveX Compatibility

VB 4.0 (32-bit), 5.0 and 6.0

ActiveX Built With

Microsoft Visual C++ v6

ActiveX - Required DLLs

None. This is a light ActiveX control that requires no extra DLLs to operate. This means that your installation packages will be smaller. And, your web pages will load faster, since there are no extra DLLs to download.

Distribution Note When you develop and distribute an application that uses this control, you should install the control file into the user's Windows SYSTEM directory. The control file has version information built into it. So, during installation, you should ensure that you are not overwriting a newer version.

The product number for Tray/X (control only) is 16050.

The product number for and the C/C++ source code (of the control itself) is 16051.

DELIVERY METHODS

We can ship this software to you via air mail and/or e-mail.

Air Mail - you will receive diskettes, a printed manual (if purchased), and printed receipt if you choose this delivery method. The costs are:

US\$10.00	US Priority Mail
US\$15.00	Airborne Express 2nd Day (US deliveries only)
US\$20.00	Airborne Express Overnight (US deliveries only)
US\$20.00	Global Priority Mail (Int'l deliveries only; Western Europe, Pacific Rim and Canada only)
US\$45.00	International Airborne Express (Int'l deliveries only)

E-Mail - We can ship this package to you via e-mail. You need to have an e-mail account that can accept large file attachments (which includes CompuServe, AOL, and most Internet providers). We will e-mail a receipt to you.

Be sure to include your full mailing address with your order. Sometimes (on the Internet) the package cannot be e-mailed, so we are forced to send it through the normal mails.

ORDER / PAYMENT METHODS

You can order this software by phone, fax, e-mail, mail. For your convenience, an order form has been provided that you can print out directly from this help file.

Please note that orders must include all information that is requested on our order form. Your shipment WILL BE DELAYED if we have to contact you for additional information (such as phone number, street address, etc.).

You can pay by credit card (VISA, MasterCard, American Express, Discover, NOVUS), check (U.S. dollars drawn on a U.S. bank), cash, International Money Order, International Postal Order, Purchase Order (established business entities only - terms net 30), or wire transfer.

WIRE TRANSFER INFORMATION

Here is the information you need regarding our account for a wire funds transfer:

Bank Name:	SeaFirst - Stone Way Branch
Bank Address:	3601 Stone Way North
	Seattle, WA 98103
Bank Phone:	206-585-4951
Account Name:	Mabry Software, Inc.
Routing Number:	12000024
Account Number:	16311706

If you are paying with a wire transfer of funds, please add US\$25.00 to your order. This is the fee that SeaFirst Bank charges Mabry Software. Also, please ADD ANY ADDITIONAL FEES THAT YOUR BANK MAY CHARGE for wire transfer service. If you are paying with a wire transfer, we must have full payment deposited to our account before we can ship your order.

Icon Property

IconVisible Property

Icon Property

[See Also](#)

Description

Determines the icon to display in the system tray.

Syntax

object.**Icon** [= *icon*]

The syntax of the **Icon** property has these parts:

<u>Part</u>	<u>Description</u>
<i>object</i>	A Tray/X control.
<i>icon</i>	A picture that determines the icon to display in the system tray.

Remarks

This property determines the icon to display in the system tray. You may only set this file to an icon (ICO file). Bitmaps (BMPs) and metafiles (WMFs) are not supported.

If you set this property while the [IconVisible property](#) is set to True, Tray/X will automatically update the icon displayed in the system tray.

Data Type

Picture

RightClick Event

[See Also](#)

Description

Fires when user right clicks on [icon](#).

Syntax

Sub *object* **RightClick**(*[index As Integer]*)

The syntax of the **RightClick** event has these parts:

<u>Part</u>	<u>Description</u>
<i>object</i>	A Tray/X control.
<i>index</i>	An integer that identifies a control if it's in a control array.

Remarks

This event fires when the user right clicks on the tray icon. RightClick fires just before the Click event. RightClick is fired in addition to the Click event. Just like the Click event, RightClick does not fire on the second click in a double-click.

ToolTipText Property

[See Also](#)

Description

Determines tool tip text for this control's tray icon.

Syntax

object.ToolTipText [= *text*]

The syntax of the **ToolTipText** property has these parts:

<u>Part</u>	<u>Description</u>
<i>object</i>	A Tray/X control.
<i>text</i>	A string expression that determines the tool tip text to display.

Remarks

This property determines the text to display when the user pauses the mouse cursor over this control's tray icon, when visible. This text may be up to 63 characters in length. Setting this property to an empty string will disable the tool tip text, for this icon only.

Data Type

String

Version Property

Description

Returns the version of the control.

Syntax

object.**Version**

The syntax of the **Version** property has these parts:

<u>Part</u>	<u>Description</u>
<i>object</i>	A Tray/X control.

Remarks

This property holds the current version of the control. It is read-only and available at both design-time and run-time.

Data Type

String

IconVisible Property

[See Also](#)

Description

Determines whether or not the tray icon is visible.

Syntax

object.IconVisible [= *visible*]

The syntax of the **IconVisible** property has these parts:

<u>Part</u>	<u>Description</u>
<i>object</i>	A Tray/X control.
<i>visible</i>	A boolean expression that determines if the tray icon is shown.

Remarks

This property determines if the tray icon, specified by the [Icon property](#), is shown. If this property is set to True, this control shows the icon. If set to False, the icon is hidden.

Data Type

Boolean

Licensing Information

Legalese Version

Mabry Software grants a license to use the enclosed software to the original purchaser. Copies may be made for back-up purposes only. Copies made for any other purpose are expressly prohibited, and adherence to this requirement is the sole responsibility of the purchaser.

Customer written executable applications containing embedded Mabry products may be freely distributed, without royalty payments to Mabry Software, provided that such distributed Mabry product is bound into these applications in such a way so as to prohibit separate use in design mode, and that such Mabry product is distributed only in conjunction with the customers own software product. The Mabry Software product may not be distributed by itself in any form.

Neither source code for Mabry Software products nor modified source code for Mabry Software products may be distributed under any circumstances, nor may you distribute .OBJ, .LIB, etc. files that contain our routines. This control may be used as a constituent control only if the compound control thus created is distributed with and as an integral part of an application. Permission to use this control as a constituent control does not grant a right to distribute the license (LIC) file or any other file other than the control executable itself. This license may be transferred to a third party only if all existing copies of the software and its documentation are also transferred.

This product is licensed for use by only one developer at a time. Mabry Software expressly prohibits installing this product on more than one computer if there is any chance that both copies will be used simultaneously. This restriction also extends to installation on a network server, if more than one workstation will be accessing the product. All developers working on a project which includes a Mabry Software product, even though not working directly with the Mabry product, are required to purchase a license for that Mabry product.

This software is provided as is. Mabry Software makes no warranty, expressed or implied, with regard to the software. All implied warranties, including the warranties of merchantability and fitness for a particular use, are hereby excluded.

MABRY SOFTWARE'S LIABILITY IS LIMITED TO THE PURCHASE PRICE. Under no circumstances shall Mabry Software or the authors of this product be liable for any incidental or consequential damages, nor for any damages in excess of the original purchase price.

To be eligible for free technical support by telephone, the Internet, CompuServe, etc. and to ensure that you are notified of any future updates, please complete the enclosed registration card and return it to Mabry Software.

English Version

We require that you purchase one copy of a control per developer on a project. If this is met, you may distribute the control with your application royalty free. You may never distribute the LIC file. You may not change the product in any way that removes or changes the requirement of a license file.

We encourage the use of our controls as constituent controls when the compound controls you create are an integral part of your application. But we don't allow distribution of our controls as constituents of other controls when the compound control is not part of an application. The reason we need to have this restriction is that without it someone might decide to use our control as a constituent, add some trivial (or even non-trivial) enhancements and then sell the compound control. Obviously there would be little difference between that and just plain reselling our control.

If you have purchased the source code, you may not re-distribute the source code either (nor may you copy it into your own project). Mabry Software retains the copyright to the source code.

Your license is transferable. The original purchaser of the product must make the transfer request. Contact us for further information.

The sample versions of our products are intended for evaluation purposes only. You may not use the sample version to develop completed applications.
