### **Description:**

wesCommonLibrary is an Active X Automation server. It is intended to provide Microsoft Visual Basic 4.0 and 5.0 developers commonly needed functionality beyond that provided by Visual Basic for Applications (VBA).

Three versions are provided in the form of 32-bit dynamic link libraries (DLL). The servers were developed in Visual Basic 4.0 and 5.0 (compiled and p-code) and have been tested with Visual Basic 4.0 and 5.0 clients.

There is no additional charge for upgrades to wesCommonLibrary.

### **Requirements:**

wesCommonLibrary requires Microsoft Windows 95 or Microsoft Windows NT 3.51 or higher. The Visual Basic 4.0 version requires the following 32-bit runtime files:

CTL3D32.DLL  
MFC40.DLL  
MSVCRT20.DLL  
MSVCRT40.DLL  
OLEPRO32.DLL  
VB40032.DLL  
VEN2232.OLB

The Visual Basic 5.0 version requires the following 32-bit runtime files:

ASYCFILT.DLL  
COMCAT.DLL  
CTL3D32.DLL  
MSVBVM50.DLL  
OLEAUT32.DLL  
OLEPRO32.DLL  
STDOLE2.TLB

Visual Basic developers should already have copies of these files. Copies are also available online:

CompuServe (search for VB4RUN32.EXE or similarly named files)  
Microsoft's World Wide Web site (<http://www.microsoft.com/>)  
West End Software's World Wide Web site (<http://www.thecave.com/wesoft/>)

### **Installation:**

Run the file Setup.exe and follow the directions.

### **License:**

Please read the file License.wri.

### **Registration:**

wesCommonLibrary can be registered for US\$29. Registration is available through several sources:

1. On CompuServe, use the Shareware Registration service (GO SWREG), Registration ID 14769. The registration fee is charged to your CompuServe account.

2. On the World Wide Web, set your browser to

<http://www.thecave.com/wesoft/>

and follow the ordering directions. The registration fee can be charged to any major credit card via PsL, a credit card order service.

3. Complete the order form in Order.txt and fax it to PsL at 713-524-6398. The registration fee can be charged to any major credit card.

**Important:** These services are for REGISTRATION ONLY. Please see the Support section below for all other correspondence.

Registered users of wesCommonLibrary receive a license number and user name via electronic mail, or via postal mail if no electronic mail address is provided. Although unregistered copies of wesCommonLibrary are fully functional, a message box is displayed each time an Library object is instantiated. Setting the LicenseNumber and UserName properties of the Application object with valid values prior to instantiating Library objects eliminates the message box.

**Support:**

Questions, comments, and suggestions regarding wesCommonLibrary should be sent to West End Software via electronic mail at any of the following addresses:

CompuServe Mail:	wesoft
Internet Mail:	wesoft@thecave.com
	wesoft@compuserve.com

**History:**

**Version 1.0.0 (4/26/97)**

Initial Visual Basic 5.0 release

**Version 1.0.0 (3/3/97)**

Initial Visual Basic 4.0 release
