

BattleStar for Windows 95/NT

Copyright © 1986-1998 by Gregory Braun. All rights reserved.

Overview

BattleStar for Windows 95/NT is a small game similar to the classic BattleShip. The BattleStar game board is a 9x9x9 grid representing a 3-D galaxy. The galaxy contains 972 sectors, 60 of which contain enemy warships. You must locate and destroy these enemy invaders before they can establish bases in the galaxy

Game Play

Simply click the **Mouse** on any galaxy sector coordinate to select a missile target and then press the **Spacebar** to fire a missile. Press the **Enter** key to move to the next galaxy quadrant.

Desktop Locations

BattleStar's location on the desktop is saved when the program is exited. Whenever you start BattleStar it will reappear on the desktop where you last placed it. BattleStar property sheet locations are also stored and reused the next time they are opened.

Installing BattleStar

Installation

To install BattleStar for Windows 95/NT on your computer simply create a new, empty folder and place the files; BSTAR.EXE, BSTAR.HLP and BSTAR.CNT there.

BSTAR.EXE	- The BattleStar Application
BSTAR.HLP	- The Windows 95/NT Help File
BSTAR.CNT	- The Windows 95/NT Help Contents File

If you installed BattleStar for Windows 95/NT using the SETUP.EXE program and selected the default installation settings BattleStar for Windows 95/NT will be installed in the **C:\Program Files\Software by Design** folder.

To integrate BattleStar for Windows 95/NT with the MS Windows Explorer select the **Help | Setup** menu item to open the BattleStar Explorer Setup property sheet.

Note If you have an earlier version of BattleStar for Windows 95/NT installed on your computer, simply replace the BSTAR.EXE, BSTAR.HLP and BSTAR.CNT files with the newer versions.

The various application settings specified in the BattleStar Options property sheet as well as the main window's size and location on the desktop are stored in the MS Windows 95/NT System Registry.

Warning If you rename the BSTAR.EXE file you must also rename the BSTAR.HLP file using the same basename. For example if you change the BattleStar application file name to NewName.exe, rename the help file to NewName.hlp. Do not rename the BSTAR.CNT file however. The HLP and CNT files *must* reside in the same folder as the BattleStar application file itself.

The MS Windows 95/NT Help program creates a pair of files associated with the BSTAR.HLP file. These files will have file extensions of GID and FTS. These files are used to store specific information about the help window location on the desktop and the word list used for topic searching. These two files will be created when the BattleStar for Windows 95/NT Help file is first used.

Configuring BattleStar

BattleStar Options

Select the **File | Options** menu item to open the BattleStar Options property sheet. This window will allow you to change the various BattleStar program settings listed below.

Easy

Check this item to play BattleStar games that are VERY easy to win. You will be given 360 Missiles and 150 Fuel Units.

Normal

Check this item to play BattleStar games that are challenging. You will be given 240 Missiles and 100 Fuel Units.

Hard

Check this item to play BattleStar games that are VERY hard to win. You will be given 120 Missiles and 50 Fuel Units.

Play Sound F/X Wave Files

Check this box to play WAV files. Your computer system must be equipped for MultiMedia and have a sound card installed for this option to be valid.

OK

Press this button when you have completed your selection of BattleStar program options. When you press this button the BattleStar Options property sheet will be closed and your settings will be saved.

Cancel

Press this button to close the BattleStar Options property sheet without making any changes. If you have made any changes to the option settings, and then press this button your changes will not be used, and your previous settings will remain in use.

Help

Press this button to open the BattleStar Help Window and go directly to the Configuring BattleStar topic.

Note The options you have selected will be saved when you press the **OK** button. The desktop location of the BattleStar Options window itself will also be stored. Your settings will be saved in the MS Windows 95/NT System Registry.

BattleStar Explorer Setup

BattleStar Explorer Setup

Select the **File | Options** menu item to open the BattleStar Options property sheet. Select the **Explorer** tab to display MS Windows 95/NT Explorer setup options. This window will allow you to integrate BattleStar for Windows 95/NT with the Microsoft Windows 95/NT Explorer. You can also select the **Help | Setup** menu item to go directly to this window. Use this command to create and remove MS Explorer shortcuts for BattleStar for Windows 95/NT.

Create a Start Menu Item

Check this item to create a BattleStar Start Menu entry. The BattleStar for Windows 95/NT program will be located in the Software by Design folder on the Programs menu. This item will be disabled (grayed) if a BattleStar item already exists in the Software by Design folder.

Remove this Start Menu Item

Check this item to remove the BattleStar entry located in the Software by Design folder on the Programs menu. This item will be disabled (grayed) if a BattleStar item does not already exist in the Software by Design folder.

Create a Desktop Icon

Check this item to create a BattleStar for Windows 95/NT program icon on the Explorer desktop. This item will be disabled (grayed) if a BattleStar desktop icon already exists.

Remove Icon from the Desktop

Check this item to remove the BattleStar for Windows 95/NT program icon from the Explorer desktop. This item will be disabled (grayed) if a BattleStar desktop icon does not already exist.

Create a Startup Folder Item

Check this item to automatically run BattleStar for Windows 95/NT whenever Microsoft Windows is started. This option creates a BattleStar program icon in the MS Windows Explorer Startup folder. This item will be disabled (grayed) if a BattleStar startup item already exists in the Startup folder.

Remove the Startup Folder Item

Check this item to remove BattleStar from the MS Windows Explorer Startup folder. This item will be disabled (grayed) if a BattleStar startup item does not already exist in the Startup folder.

OK

Press this button when you have completed your selection of MS Explorer shortcuts. When you press this button the BattleStar Setup property sheet will be closed and the MS Explorer shortcuts you have selected will be created or removed.

Cancel

Press this button to close the BattleStar Explorer Setup property sheet without creating or removing any MS Explorer shortcuts.

Help

Press this button to open the BattleStar Help window and go directly to the BattleStar Explorer Setup topic.

Game Menu

Game Menu Commands

The Game menu provides commands to play and save BattleStar games. A short description of each item follows:

New

Starts a new BattleStar game. The **Ctrl+N** shortcut can be used for this command.

Open

Opens a previously saved BattleStar game document, and loads it for play. When this item is selected the standard MS Windows Explorer file browser will be displayed, use this window to select the game you wish to resume playing. The **Ctrl+O** shortcut can be used for this command.

Properties

Display file property information about the current BattleStar game document. The **Alt+Enter** shortcut can be used for this command.

Close

Closes the currently active BattleStar game. You will be prompted to save or discard the current game before closing. The **Ctrl+W** shortcut can be used for this command.

Save

Saves the current game. The **Ctrl+S** shortcut can be used for this command.

Options

Opens the [BattleStar Options](#) property sheet and allows you to change BattleStar program settings. Use this command to configure the BattleStar program.

Exit

Closes the BattleStar for Windows 95/NT program and returns control to the Explorer desktop. The **Ctrl+Q** shortcut can be used for this command.

Tip Commonly used Game commands can be invoked using [shortcut keys](#).

View Menu

View Menu Commands

The View menu provides commands used to change BattleStar display options. These items provide a means of changing the BattleStar window appearance. A short description of each item follows:

Z Axis Scan

Use this command to display a Z Axis Scan of the galaxy. The **Ctrl+Z** shortcut can also be used for this command.

Y Axis Scan

Use this command to display a Z Axis Scan of the galaxy. The **Ctrl+Y** shortcut can also be used for this command.

X Axis Scan

Use this command to display a Z Axis Scan of the galaxy. The **Ctrl+X** shortcut can also be used for this command.

Scanner Log

Use this command to display the BattleStar Scanner Log window. This window will contain information regarding the galaxy coordinates you have explored. The **Ctrl+L** shortcut can also be used for this command.

Always on Top

Use this command to keep the BattleStar window top most on the desktop. When this item is checked the BattleStar window will float above all other non-topmost windows on the desktop. This item is useful if you normally run BattleStar with a small window that would be easily obscured by other applications. The **Ctrl+T** shortcut can be used for this command.

Tip Commonly used View commands can be invoked using shortcut keys.

Ship Menu

Ship Menu Commands

The Ship menu provides commands used to control the ship. A short description of each item follows:

Aim

Opens and displays the targeting coordinate window. The **Ctrl+A** shortcut can also be used for this command.

Fire

Fires a single missile using the current target coordinates. The **Ctrl+F** shortcut can also be used for this command.

Helm

Opens and displays the helm coordinate window. The **Ctrl+H** shortcut can also be used for this command.

Engage

Engages the engines. The **Ctrl+M** shortcut can also be used for this command.

Reverse

Reverses the engines. The **Ctrl+R** shortcut can also be used for this command.

Play Sounds

This command turns sounds F/X on and off. The **Ctrl+P** shortcut can also be used for this command.

Tip Commonly used Ship commands can be invoked using shortcut keys.

Help Menu

Help Menu Commands

The Help menu provides commands used to get help with BattleStar operations. A short description of each item follows:

Contents

Opens the BattleStar Help Topics window and displays the Table of Contents. The **F1** shortcut can be used for this command.

Search

Opens BattleStar Help Topics and displays the Search window. You can use this window to search for specific BattleStar help topics.

How to Use Help

Opens a Help window that explains how to use the MS Windows 95/NT Help program.

Game Rules

Displays BattleStar game rules. Press the **[Esc]** key, or click your mouse anywhere in the main viewing region to resume play.

Keyboard Shortcuts

Displays BattleStar keyboard shortcuts. Press the **[Esc]** key, or click your mouse anywhere in the main viewing region to resume play.

Mission Orders

Displays BattleStar mission orders. Press the **[Esc]** key, or click your mouse anywhere in the main viewing region to resume play.

Register

Displays the BattleStar Shareware Registration Wizard. This wizard allows you to register BattleStar for Windows 95/NT for authorized use.

Setup

Displays the BattleStar Explorer Setup property sheet. This window provides options to integrate BattleStar for Windows 95/NT with the MS Windows Explorer. Use this window to create MS Explorer Start Menu items and desktop icons.

Web Site

Opens your web browser application and goes directly to the Software by Design web site on the Internet.

About BattleStar

Displays the BattleStar splash box. This window contains program information, the current version of BattleStar you are running and a program copyright notice. Click the mouse anywhere in this window to close it

Tip Commonly used Help commands can be invoked using shortcut keys.

Shortcut Keys

Shortcuts

Shortcut keys allow you to quickly invoke BattleStar menu commands without first displaying the menu and then selecting an item from it. The most commonly used BattleStar commands can be invoked using the following shortcut keys.

Game Menu

Ctrl+N	Start a new BattleStar game
Ctrl+O	Open an existing BattleStar game
Alt+Enter	Display BattleStar document properties
Ctrl+W	Close the current BattleStar game
Ctrl+S	Save the current BattleStar game
Ctrl+Q	Exit BattleStar, and return to the desktop

View Menu

Ctrl+Z	View along the Z axis
Ctrl+Y	View along the Y axis
Ctrl+X	View along the X axis
Ctrl+L	Open the Scanner Log
Ctrl+T	Make the BattleStar window topmost

Ship Menu

Ctrl+A	Set targeting coordinates
Ctrl+F	Fire a missile
Ctrl+H	Set helm coordinates
Ctrl+M	Engage the engines
Ctrl+R	Reverse the engines
Ctrl+P	Turn sound F/X on and off

Help Menu

F1	Display this Help file
-----------	------------------------

Keyboard Shortcuts

The following keyboard shortcuts can also be used. These commands do not require the Ctrl or Alt key, but rather can be issued directly from the keyboard:

Weapons

A	Aim Dialog
F	Fire Missile

Engines

H	Helm Coordinates
E	Engage Engines
R	Reverse Engines

Scanner

X	Axis Scan
Y	Axis Scan
Z	Axis Scan

Comments and Upgrades

Comments and Suggestions

If you have comments, questions or find any bugs in BattleStar for Windows 95/NT please feel free to contact me on CompuServe.

Release History

BattleStar for Windows 95/NT Release History

- v2.0** Original in-house development and testing of MS Windows 95/NT conversion using the Microsoft Win32 SDK.
- v2.1** Added 95/NT splash box for release.
- v2.2** Added facilities to save Aiming, Helm and Scanner Log dialog box desktop locations in the INI file.
- v2.3** Added support for screen color settings as specified in the Display Properties dialog. Added default user and company name to the splash box.
- v2.4** Added an MS Windows 95/NT Help file. BattleStar program settings are now saved in the MS Windows 95/NT System Registry. Fixed a bug that prevented proper window repositioning when the MS Explorer Taskbar was placed on the left edge or at the top of the desktop. Converted the BattleStar Options dialog box to a three-tab property sheet. Added an automated Explorer Setup facility. Added a BattleStar Diagnostics explanation. Fixed several other minor bugs.
- v2.5** Fixed several minor bugs.

System Registry

BattleStar for Windows 95/NT System Registry Key

BattleStar for Windows 95/NT stores configuration settings in the MS Windows 95/NT System Registry. These settings are updated automatically while BattleStar is running. There is no need to edit these settings manually.

If you insist upon editing these settings, you do so at your own risk. BattleStar automatically updates registry entries when it exits. If you edit these settings make sure BattleStar is not running while you edit them. If BattleStar is currently running your changes will be overwritten when BattleStar exits.

BattleStar for Windows 95/NT stores configuration settings in the following system registry key:

```
HKEY_CURRENT_USER
Software
  Software by Design
    BattleStar for Windows 95/NT
      Section
        Label = Value
```

Warning There is no need to edit these settings manually. BattleStar will automatically maintain these settings for you. If you do edit these, you do so at your own risk.

Removing BattleStar

Removing BattleStar for Windows 95/NT

If you find that BattleStar for Windows 95/NT does not meet your needs you can remove it from your computer system by simply deleting the following files from your hard drive. All of these files will be located in the folder that you originally installed BattleStar in.

BStar.exe	BattleStar for Windows 95/NT application program.
BStar.cnt	BattleStar Help Topics File
BStar.hlp	BattleStar Help File

If you have opened and used the BattleStar for Windows 95/NT Help files your system may contain the following two (2) files. These files are created by the standard MS Windows 95/NT Help program WinHlp32.exe. These files may also be safely removed.

BStar.gid	MS Windows Help settings file. This file contains the BattleStar Help window size and desktop location as well as any bookmarks you may have created.
------------------	---

BStar.fts	MS Windows Help word database. This file is created when you build a custom word list for BattleStar Help files. This file is used to search for words and phrases in the BattleStar Help files.
------------------	--

BattleStar for Windows 95/NT does not use any custom DLL files or system drivers. If you delete the files mentioned above from your system's hard drive you will have completely removed BattleStar from your computer system.

Note If you have installed BattleStar shortcuts on the MS Explorer Start Menu use the **Help | Setup** command to remove the shortcuts you created before you delete the BattleStar files mentioned above.

BattleStar Diagnostics

BattleStar Diagnostics

During the development of BattleStar for Windows 95/NT a diagnostics facility was needed to test various game scenarios. These diagnostics commands remain in the release version. These commands are included for testing purposes only and should not be used by regular game players.

- D** Turns BattleStar diagnostics ON and OFF
- E** Selects Engines for update
Arrow Keys To increase and decrease the Fuel supply
- W** Selects Weapons for update
Arrow Keys To increase and decrease the Missile supply
- S** Turns the BattleStar Scanner ON and OFF

What is Shareware

The concept of "Shareware"...

Shareware, also known as user supported software and other names, is a concept not understood by everyone. The author of Shareware retains all rights to the software under the copyright laws while still allowing free distribution. This gives the user the chance to freely obtain and try out software to see if it fits their needs. Shareware should not be confused with Public Domain software even though they are often obtained from the same sources.

If you continue to use Shareware after trying it out, you are expected to register your use with the author and pay a registration fee. What you get in return depends on the author, but may include a printed manual, free updates, telephone support, etc. Only by paying for the Shareware you use do you enable the Shareware author to continue to support his software and create new programs. Considering that the Shareware registration fees are almost always far less than the purchase price of comparable commercial software it's obvious that Shareware is a good deal for everyone.

There are real advantages to you in the Shareware system. You get to try out software to make sure it is compatible with your hardware and that it fits your needs before you "buy" it with your registration. The author saves the expense of advertising, packaging and distribution and passes the savings on to you. Plus, most Shareware authors are much more accessible than commercial software sources so that your questions and suggestions are much more likely to be responded to.

Thank you for your support.

Registering BattleStar for Windows 95/NT

Registering BattleStar

BattleStar for Windows 95/NT is distributed as shareware. You may evaluate it free of charge for 30 days. After 30 days if you continue to use BattleStar for Windows 95/NT you are required to register it. If after evaluating BattleStar for 30 days you decide not to register it you are required to remove it from your computer.

Registration entitles you to unlimited free updates and telephone support.

You can register BattleStar for Windows 95/NT by mailing the Order Form provided with this software. When you register BattleStar for Windows 95/NT you will receive your registration code by E-Mail, or optionally you may request that your registration code be mailed to you.

The software you are currently using is a fully functioning program. There are no time limitations built into the software to restrict its continued use and no program features have been disabled. As a registered user you will however be able to disable the initial splash box that appears when BattleStar for Windows 95/NT is first launched.

To register your copy of BattleStar for Windows 95/NT select the **Help | Register** menu command. The Shareware Registration Wizard will be displayed when this menu command is selected. Use this window to fill in the following entry fields:

User Name

Enter the user name you originally specified when you ordered BattleStar for Windows 95/NT.

Organization

Enter the name of your organization as originally specified when you ordered BattleStar for Windows 95/NT. If you did not specify an organization name leave this field blank.

Registration

Enter the registration code that was provided to you. Enter your registration code exactly as provided. Do not include spaces when entering your registration code.

Note The registration code was provided to you when you purchased BattleStar for Windows 95/NT. Refer to the notification letter that was mailed to you or the E-Mail message you received for your personal shareware registration code.

Show Splash Box at Startup

This box will be initially checked if you have not registered BattleStar for Windows 95/NT. When you successfully register your copy of BattleStar this box will automatically be unchecked for you. If you wish to see the splash box when BattleStar is launched return to this Registration Wizard and check this box.

OK

Press this button after you have filled out the Shareware Registration Wizard to complete BattleStar for Windows 95/NT shareware registration.

Cancel

Press this button to close the Shareware Registration Wizard without making any changes.

Help

Press this button to open the BattleStar Help window and go directly to the Registering BattleStar topic.

Purchasing Information

Purchasing Information

BattleStar for Windows 95/NT is distributed as shareware. You may evaluate it free of charge for 30 days. After 30 days if you continue to use BattleStar for Windows 95/NT you are required to register it. If after evaluating BattleStar for 30 days you decide not to purchase it you are required to remove it from your computer.

Registration entitles you to unlimited free updates and telephone support.

You can register BattleStar for Windows 95/NT by mailing the Order Form provided with this software. When you register BattleStar for Windows 95/NT you will receive your registration code by E-Mail, or optionally you may request that your registration code be mailed to you.

License Agreement

License Agreement

You should carefully read the following terms and conditions before using this software. Unless you have a different license agreement signed by Gregory Braun, your use of this software indicates your acceptance of this license agreement and warranty.

Registered Version

One registered copy of BattleStar for Windows 95/NT may either be used by a single person who uses the software personally on one or more computers, or installed on a single workstation used nonsimultaneously by multiple people, but not both.

Site License

Any number of users at a single location may access the registered version of BattleStar for Windows 95/NT through a network, provided that you have obtained a site license for the software covering all workstations that will access the software through the network. Any number of users at a single location can install and use the software on one or more computers or workstations.

Corporate License

Any number of users at any number of locations may access the registered version of BattleStar for Windows 95/NT through a network, provided that you have obtained a corporate license for the software covering all workstations that will access the software through the network. Any number of users at any number of locations can install and use the software on one or more computers or workstations.

Software Updates

Registered users of BattleStar for Windows 95/NT are entitled to unlimited free program updates. Software updates can be downloaded directly from the Software by Design web site on the Internet.

Governing Law

This agreement shall be governed by the laws of the State of Wisconsin.

Disclaimer of Warranty

THIS SOFTWARE AND THE ACCOMPANYING FILES ARE SOLD "AS IS" AND WITHOUT WARRANTIES AS TO PERFORMANCE OR MERCHANTABILITY OR ANY OTHER WARRANTIES WHETHER EXPRESSED OR IMPLIED. NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE IS OFFERED.

Good data processing procedure dictates that any program be thoroughly tested with non-critical data before relying on it. The user must assume the entire risk of using the program. ANY LIABILITY OF THE SELLER WILL BE LIMITED EXCLUSIVELY TO PRODUCT REPLACEMENT OR REFUND OF PURCHASE PRICE.
