<u>Installation of Grapher</u>

To install the grapher component into delphi you must carry out the following:

1.   When in Delphi. Select 'Options' from the top menu and choose 'Install Components'.
2.   Select 'Add'.
3.   Select 'Browse'.
4.   Move to the directory you have installed the Grapher files.
5.   Select 'Grapher.DCU'.
6.   Choose 'OK' to start the installation.

The Grapher component should appear in your Sample pallette.

To test it is working OK. Open and run the project Chrtst.dpr kept in the same directory.
