Opaque Software - A pioneer in the development of component software. Custom controls and components for Visual Basic and Delphi.

Delphi

OXButton - 3D Command, Toggle and Repeat **Button** for *Borland's DELPHI*.

OXButton allows you to set the 3D effects by setting various properties. You can use any bitmap or icon and OXButton will automatically create a moving drop shadow. Properties allow setting of the bitmap and optional 3D text within the control. OXButton also features right-mouse button Experts for quickly setting properties. Interactive Design Objects for setting text and picture locations. Supports Windows 95 styles.

OXDockBar - User configured dockable floating **ToolBar** for *Borland's DELPHI*.

OXDockBar allows the application developer to add any control to a sizable toolbar. Users can move OXDockBar by dragging the mouse to a new position. OXDockBar will snap to the edges of the parent window. Users can also resize the toolbar and the contained controls will realign themselves automatically. OXDockBar will also remember its last location automatically. OXDockBar supports alternate TitleBar sizes and fonts and Windows 95 styles.

Visual Basic

3D-VB Input - 3D Textbox Control for Visual Basic -

3D-VB Input allows you to set the 3D effects by setting various properties. You also have more control over what text gets input and what does not get into the control. 3D-VB Input also features right-mouse button Property Menus, which allow the programmer to quickly set properties. Includes runtime license. ver 3.0 has Data Access properties.

OXButton - 3D Command, Toggle and Repeat **Button** for **Visual Basic** .

OXButton allows you to set the 3D effects by setting various properties. You can use any bitmap or icon and OXButton will automatically create a moving drop shadow. Properties allow setting of the bitmap and optional 3D text within the control. OXButton also features right-mouse button Property Menus and Control Wiz for quickly setting properties. Includes runtime license. Interactive Design Objects for setting text and picture locations. Supports Windows 95 styles.

OXDisplay - 3 Visual Basic Custom Controls for the price of one.

OXLabel -- A 3D label control which allows for rotated, multi-line and 3D text.

OXMeter -- A 3D meter or graph control. User defined Pictures show the progress of the display bar.

OXClock -- A quick way to add a clock to any VB application. Allows for different text formats of Date and Time. Includes runtime license.

Misc.

WinJack - *Multi-Media BlackJack* for Windows -

The original blackjack game for Windows. WinJack allows the player to choose different options and rules as he bets against the computer who controls the house. WinJack version 3.0 includes sound and 256 color support.

* Delphi control demos available for downloading from CompuServe, GO OPAQUE.

** Visual Basic control demos available for downloading from CompuServe, GO OPAQUE.

*** WinJack demos available for downloading from CompuServe, GO WINFUN.
