The Settings Panel

The settings panel is the command center for BackSpace.   It is visible when BackSpace starts, or can be activated from the main menu:

paste.tiff ¬

`90072_paste.tiff ¬`

The settings panel contains:
;ModuleBrowser.rtfd;;¬   A screen saver module browser
;WindowButtons.rtfd;;¬   A window selector
;LockerSaver.rtfd;;¬   A screen locker toggle
;LockerSaver.rtfd;;¬   A screen saver toggle
;Priority.rtfd;Inspector;¬   A module-specific inspector
;Priority.rtfd;;¬   A pritority slider
;LockerSaver.rtfd;HotCorner;¬   A hot-corner selector

Click the link button next to any of the above topics for additional information about a BackSpace feature.
