and Style

## ShapeElementTool1.tiff ↗ Outline Color and Style

This portion of the Shape Library panel is used to control the outline of a shape element.

### paste.tiff ↗

Checking the button at the upper right applies the color displayed in the color well in the left. If this button is left unchecked, the outline will not be visible.

Clicking on the frame of the color well icon opens the color selection panel (;↗;../OneVision/WorkingIntro/Colors.rtf;↗), where you can select the desired color.

Clicking the line style icon below opens the Line Style Editor (;../OneVision/WorkingIntro/TMSStrokeAttributesWell.rtf;↗) for modifying the appearance of the shape's outline.
