0b815f5f84012584067f411b312d37OneVision: Edit ± Delete

## Delete

paste.tiff ↵

The <*Delete*> command deletes all selected elements.

Note: Deleted material will **NOT** be placed into the pasteboard. Deleted material cannot be retrieved, so an attention panel will ask you to confirm the action.

This command works faster than the <*Edit/Cut*> command. It can also be activated using the *Backspace* key

Next:      ;SelectAll.rtfd;;↵    Select All
