Enter Selection (Find)

155526_paste.tiff ¬
This menu command copies selected text from an OneVision-Type element   into the *Find* panel's <*Find*> field. The *Find* panel need not be open to execute this command. The keyboard shortcut for this command is *Command-e*.

You can then use the *<Find Next>* (;FindNext.rtfd;;¬) command or the buttons in the *Find* panel to search for the text you enter in the panel.
