Save Masterpage

885442_paste.tiff ¬345812_paste.tiff ¬paste.tiff ¬

This menu command is only executable when you are in the
masterpage section of your document and enables you to save the
current masterpage in a separate file. A file selection panel appears
in which you can choose a folder and enter a name for the
masterpage file. The extension ª1Vmpº will automatically be added
to the name. In each masterpage file you can save only one
masterpage.

You can import the saved masterpage to a document using the

<*Import*> command (;ImportMP.rtfd;;¬) from the *Masterpage* menu.

Next: ;AssignMP.rtfd;;¬   Assign Masterpage
