

## UserManager

# User window

SA4padPointRule2.eps ↵

Use this panel to add a new user to an existing network. This panel has two forms—short and long. It also has a Groups option for adding users to groups.

You choose User *submenu-arrow8.tiff* ↵ New or <User *944061\_submenu-arrow8.tiff* ↵ Open> from the UserManager menu to open this panel.

295009\_paste.eps ↵

*stepArrow.tiff* ↵ Use the short form to quickly add a new user to the local domain of the computer you're logged into.

814507\_paste.eps ↵

722784\_PointDashedRule3Black.eps ↵

Long Form view; ↵*754850\_stepArrow.tiff* ↵  
user ID, home directory path,  
and login shell.

Use the long form to add users when you want to set you own

paste.eps ↵

724602\_PointDashedRule3Black.eps ↵

Groups view; ↵*873551\_stepArrow.tiff* ↵  
set their default group.

Use the Group form to assign users to groups (or remove them) and to
