Compendium Deluxe #1 Testers & Strippers Menu

1.1 Testers & Strippers

| Filename | Comands | Size | Description |
|--------------|---------|------|---|
| lgc-lck2.lha | VX | 11K | LHACheck 2.0 by CALYPSO/LOGIC - This utility checks, strips adds etc. ot /.lha files, it can be used via BBS software, or just from the CLI to check your downloads. |
| lgc-zip.lha | VX | 56K | ZIPCheck V1.0 coded by CALYPSO/LOGIC - This is the best and only ZIP-Checker you've ever seen, it's 100% written in Assembler, removes BBS-Ads, adds as many files (Ads) as you want and has many other features. It can be used in your BBS or to check .zip files you have just downloaded. |
| mapus116.lha | VX | 33K | MaPuS 1.16 by Eniac - This is the ultimate solution for DMS files. You can check them, make, remove and add tail, track, front banners. Its for use via a BBS or for testing your downloaded .DMS files. |
| mst-fiid.lha | VX | 31K | FileID Box, WB and CLI versions by TekLords/ Mystic/X-DeSign - FileIDCLIBox can be used to make life easier for those that want to add the File_ID.Diz to every available archive you want to release. It allows you to add, delete, view and change the File_ID.Diz in any archive. |
