Troubleshooting
=====

Video Card and Sound Card Drivers

An outdated video or sound driver can lead to slow and choppy gameplay, or in some cases can prevent the game from running at all. To ensure an enjoyable experience with **Will Of Steel**(tm), be sure that you have the most recent video and sound drivers installed. These drivers are typically available for download from your system or hardware manufacturer's website. If you are not sure what type of video or sound card you have, or you need assistance with updating the drivers on your system, please refer to the documentation that came with your system or peripheral.
